Power Restrictions Off

strictions have all been lifted by the Onlario Hydro Power Commission. Spring and rain Infra peptenished to a sufficient degree the water supply and now the last of the restraints over the use of power have gone. Except this, that there comes a word of caution, that it is well for all users of or caution, that it is wen for all users of electric energy — and who does not use it today — to use consideration and modera-tion in the use of power so, as to conserve the supply that it may not be necessary to return to the use of restraints in the future. Of course, if the reserves of water should not be maintained there would be the ne-

of reimposing restrictions. With the experience of blackouts it is hoped that use of power will be conserved

April Comes

between the last day of Marchi. But March did not enter with bluster and rain. March did not enter with bluster and rain. March did not enter with bluster and storm, though the remanats of a quite heavy mowfall of the twenty-dight of February covered, the ground to form a wintry aspect for the month that, is supposed to enter as a lamb and go out with a storm, of the control of the control of the proposed to other as a lamb and go out with a common control of the con April is here but it was ushered in by

season's growth, the first sights of revising nature after the long siles of wither to
begin the work of painting April with the
colors of the flowers, of showing the design
of the bunds and flowers.
Now comes the season of the first evidence of the new jile, Numbers of the specjies of birds have returned from their winter section; in the far south This is the

ter solourn in the far south. This is the month that brings new labors in the country and in the city but mainly in the farming parts because a new season of growth is opening up on which the whole world waits expectantly.

One poet says of this month of April:

A gush of bird-song, a patter of April, A cloud and a rainbow's warning, Suddenly sunshine and perfect blue— An April day in the morning.

There are few people who do not know

Sweet April showers

A little later people will feel April has the spirit of the following words:

"Proud-pied April dressed in all his trim Hath put a spirit of youth in everything."

April is also called fickle because of the suddenness with which the showers may fall and the sun appear. It is a magical name of a magical season and the world

Led in Psychical Research

Harry Price, leader in British research of a psychical character is dead. His name nected with investigation of many phenomena and with uncovering of frauds He bore the reputation among spiritualists as an incorrigible skeptic. He had much to do with the foundation of a studentship in to with the foundation of a studentship in psychical research at one of the colleges of Cambridge. He was interested in psychi-al phenomena all over the world and gave the results of his investigations in books which he published. He founded the first laboratory in England for scientific study of alleged abnormal phenomena, He claim-

of alleged abnormal phenomena, He claim-ed the Indian rope trick was alsolutely mythical and had never been performed. He was known as "ghost hunter." The extent of his and man's interest in this subject which is not yet a settled matter to many persons is shown by his collection of 20,000 vommes on psychical research, magic and kindred subjects. He brought to the subject when the subject is the brought to the subject what was necessary

—a keen mind and the modern spirit of in-

remit, is in a great many persons who feet the attraction, of the unknown and the unexplained sind doubtable their will be unexplained and doubtable their will be unexplained and doubtable their will be and in fails. Modern science is helping man get at hick as far as that is possible such hopes to add move and move to man's knowledge of life and the world of nature in which he lives as a wall as for recognize splitting forces which may as world.

Great scientists are great believers.
Science is helping to expand man's grasp,
to put the facts before him and allow him
to be the judge. It does not kill a fairy story
for a great fairy tale contains an element for a great rary tase contains an element of truth and men, women and children will love such fairy tales to the end of time and at 'the same time accept and enjoy the benefits and truth of science.

Those Glass Slippers

According to a London newspaper a man has written a book to tell us, among other things, that Cinderella's famous slippers things, that Choorein's ramous suppers were not glass but fur — it was an error in translation from the French.

That isn't news, because the Enclyclopacida Britannica says the same thing.

"Pantousies en vair" somewhere in the dim

rantounes en vair" somewhere in the dim past became "pantouffes en verre," fur was changed to glass, and glass they are today. And the purists might as well save their breath. Cinderella's glippers have to be glass because generations of children have

Jobs and Responsibility

Business over the years has become ex-tremely complicated, and the head of a bank or a failread has responsibilities of which his predecessors half a century ago never dreamed. Then a big institution virtually ran itself, and its problems by com-parison were small and simple. Today such factors have come into the picture as world trade and international affairs, public relations, taxes, labor relations - above all the conscientious executive of these times has to understand his responsibilities not only to incerstand his responsibilities not only to his employees and his stockholders but to the whole broad system of organized democracy. His decisions may help to up-hold or break down the political system under which he lives and in which he be-Heves

Such a burden is not to be taken lightly by even the strongest of men, and some of the best have fallen under the strain, but there seems no solution to the problem. The experience required by the heads of our great institutions is seldom possessed by a man below his fiftles or sixties, and when he comes to the top he is physically past his best years of endurance.—Ottawa

Difficulties are the things that show hat men are. — Epictetus.

The truth is always the strongest arguent. — Sophocles.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest) APRIL 1

Every grandpa, I should say, Should be foolish every day. But, lest laughter he may miss, On a special day like this Just a hit more foolish he Ought to try his best to be.

Every grandpa ought to kick At the hat that hides a brick; Stoop for purses, knowing they Will be quickly snatched away, And inquire: "Now whose the fault That the sugar tastes like salt?"

For the twinkles in the eyes; For the laughter that will rise; For the memories to remain, Should this day not co Every grandpa, wrinkled, gray, Should be often fooled today!

LOOKING BACKWARDS GLEANINGS FROM OUR FYLES OF BY-GONE YEARS.

Another First with C.D.S. "MONITOR" Apartment Size Washers

It is small, just 15 x 15 x 30" high It is shaped to fit small corners! Yet it washes its load thoroughly!

Wash two full sized sheets or five shirts (or equivalent) in one tubful. Note these important features

- Turbine propels water through clothes, gently but irresistibly; no sharp edges or projections.
- Stainless steel tub easily cleaned, cannot soil clothes Remarkably easy to operate; plug it in and turbine starts spinning, driven by stout V-belt from over-size motor; no gears.
- Weighs only 45 lbs. It is mounted on wheels, and can be moved quickly and with little effort.
- Hand wringer has 2¼" rolls; folds away when not in use.
- Capacity is 7 gallons of water at normal
 4-lb. load.

Budget Plan Terms may be arranged if

U.S. House Passes Tax Cut Bill Over Truman Veto

Washington, April 3 -- (AP) -- The House of Representatives Friday passed the \$4.500,000,000 tax cut bill over President Trumming the Price of the Price of the Price of the Price of the Cut in spite of Truman's objection that it would 'undermine the

man's web.
It up to be Senate of whether tarpeyers are to get the cut in spite of Truman's object too that it would "undermine the sounders of our government if—sounders of our government for the United States."

Leaders and the Senate would a make the cut law before the day it done.

The measure cuts taxte on 1946 is done.

The measure cuts taxte on 1946 income for all the SLOQUOQOO in—

from 1.4 per cent in the lowest bracket to five per cent in the highest.

The House acted within the hour after it got a vigorously worded veto message from Truman. On the vote, many influential Democrats lined up with

The vote was 311 to 88. This was 45 more than the two-thirds needed to override a veto. What Bill Frovides

Effective May 1, the bill reduced all tax withholding from pay covelopes and salary effective.

or tax reporting purposes has holding the tax rates at lor reaches when holding the tax rates at lor or bracket levels. A dozen size ow have this principle by low.

3. Provides percentage cuts
2.6 per cent on the first \$2.6 faxable income (sizer deck)

3. Provides precentage cuts
12.6 per cent on the first \$2.0
of taxable income (after deck
tions and exemptions): 7.4 p
cent on that part of the inco
above \$2.000 and up to \$138,70
and five per cent on any incoe
above \$100,700.
4. Gives an additional \$800 e
emption to persons 65 years
older bringing their total exem
tion to \$1,200. Exemptions 9

npilon to persons 63 years of other bringing their total accession of the process and proc

settled world."
This was the third tax-cutti
measure the President has v
toed in a year. Last year-he r
turned two such measures
Congress without his signatu
and Congress sustained him bo
times.

draws attention to the remarks of Miss age that the threefold antidote of a Doimage that the threefold antidote of a good home life, proper recreation and cap-able guidance through the school period, would ward off any possible evil influences of the comics, the mortes or radio thrillers and adds that "this is disappointing to tione who will look for any excuse but their few aborteomings to explain instability in the young."

Appeal of Zoo

Appeal of Zoo
Restocking the London Zoo atter the
war has been one of the most difficult of
tasks. The Zoo suffered damage from
bombing during the war but was kept open
at the time, Collection of animals dwindled naternally when there were no replace
ments from abstroad.

During the last two years the Zoo asuthcritics have been accounting the world for
demander that there is an increasing
ordites have been accounting the world for
demander that there is an increasing
ordites have been accounting the world for
demander that there is an increasing
world. Now the total or collections is about
out to pre-war standards. Dr. C. Vevers the
superintendent of the scoolety recently
broadcast to BBC Overses listeners telling
of the foundation of the Zoological Society
or the control of the scooletical Society
or the control of the Zoological Society
or of the foundation of the Zoological Society ly one hundred and twenty years ago

"From West Africa we've received chimp-snzees and other mammals, birds and reparmees and other mammals, birds and rep-iduring the monomous annees and other mammals, birds and rep-iduring the was built to take care of a number of tile; from East Africa — giraffics, hippos, Castle was built to take care of a number of tile, or tile, and replifies. From Borneo and the Mallay—
and septifies. From Borneo and the Mallay—
and gaint jurishman. There are penguine she some revenue from the old from San Diego. A few weeks ago we received from New York a pair of one of the most handsome birds of Central America — the quetzal or resplendent tregon, with metal-lic plumage and a tall at least a yard long." These rare birds came by air trans-port which has proved of inestimable value to the Zoo, as before such travel was a commonplace many rare creatures died during the long sea journeys. "Lien-Ho, the giant pands, was flown from China to Lon-don in less than six days," said Dr. Vevers. "During the journey Lien-Ho was kept cool by consignments of ice picked up from the various airfields.

"Special provisions are made for younger visitors to the Zoo, who have their own Children's Zoo, where they can handle all kinds of animals under proper supervision. We regard this as a very important part of a child's education, because it engenders a love of animals and at the same time dis-pels any fear of them. Last year nearly two and three-quarter million people came to the Zoo. — which means one in fifteen of

sin's population,"
is, Crown granted the pioneers of the about 120 years ago, a few acres of land

To Preserve Freedom

To Preserve Freedom

Representativis of the English-speaking peoples of North America Joind on Friday all the 1941 cennity, 543, per cent of Changongies of North America Joind on Friday all the 1941 cennity, 543, per cent of Changolish-speaking people in Morth America Joind on Friday all these small villages which are more at Williamsburg. Vilginia, in facing the remaining the state of the left of America Changolish of the Capital Changolish of the Capital Changolish of the William and Mary Landon College with degrees and spokes on insisters of interest to the free peoples on this contingt and the total population. It was in a historic setting of the capital in 1941, because there was a waftime of the old Rivish Dominion, Vilginia, and Inspect and 1942 the Capital Changolish Chango

It was in a historic setting of the capital of the old British Dominion, Virginia, and near Jamestown where the first permanent English settlement arose, that the occasion was marked. Such a centre could not fall to reveal the ties which bind these two North American nations and the Mother

and of Britain.

His Excellency the Governor-General, who as military leader, had a prominent part in crushing the war of tyranny which the Axis Powers started, could well stress the Asis Fowers started, could well stress the need for course, energy and determination as needed in this day as much as in the winning of the war. Pallure to display less of these qualified action or "to display less of these qualifiest" will mean failure in the mission of a longer and the display less of these qualifiest will mean failure in the mission of a longer, when the inspected them prior to their departure for duty in Africa. On the total this ties pitch of evo-operation must be

The Canadian Prime Minister in graphic language described the grave and insidious developments of this period, which have arisen from the sowing of the seeds of unrest and anarchy throughout the globe, wherever the soil gives promise of growth. The menace he termed "appalling" and he said "treedom is threatened not only by military force, but by an organized con-spiracy to establish a tyranny over the hu-man mind, to thwart the wills and to deman mind, to these the souls of nations as well as of men. He warned that "a way must be found and that right speedly to ensure that nations which are still free will not be suborned, defeated or destroyed one by one."

"Go to the Ant"

The ant has long been held up as the model of industry, its efforts producing an amazing result, according to observers ancient and modern. But not all ants are so energetis. That is the finding of a group of scientists who went down to Panama re-cently and followed two bodies of ants as they travelled at the rate of about 500 rds a day through dense jungle. closely observed and it is found that about 40 per cent of the insects in a community spend their time not in work but in lolling spend their time not in work out in foling about the nest all day and never making any sign of the effort with which popular legend has credited them. The scientists carefully marked the ant marchers and have helped to shitter the time-honored and cheriabed belief that every ant was an indestricted worker. defatigable worker.

The scientific men from the American

Museum of Natural History have brought to the gods.—Socrates, back 20,000 maranding ants and will study their behaviour. Dr. Schneirla, curator of JUST Fo the Museum, has an interest in learning more about human behaviour by watching

more sound inuman behaviour by watching adminal and next behaviour patterns.
About 40 per cent of the ants they studied are said to be good workers and it is on this active class no doubt that the eart has been worth a reputation of tircless endeavor and But if you withinger and complain. of achievement of amazing results. They must be good workers to achieve what they do while the others loaf.

or wine the others soat.

Dr. Schneiff: a says that ants are very marked and can learn to go through a mase man and can learn to go through a mase in search of food in a way that would he Retuse to learn, and, as a rule, and baffle a university, psychology stu-

Just as the royal philosopher, King Sol-mon of ancient times, modern science has The not by merit some succeed. Just as the royal money than the modern school and modern the wholeyering tongues that any common of ancient times, modern actioned has "but hard and doubthir-seems the way, be wise." The modern schoulat; is no sing-gard. In his tirebess jurning in one experience and knowledge wherever it may be found, he is a model of industry life the busy and or bee, not like the forty per cent of the common the common than the common than

Urban Population

Abstralla has completed a cunsus, and it reveals a trend also apparent in Canada during the past few decades. The urban population is increasing in proportion to the tural.

the rural.

With a total of 7,580,000 peoples, 50.72
per cent of Australians lived in metropolitan areas, but whether this includes towaand larger villages is not clear. According
to the 1941 census, 54.3 per cent of Cana-

drift to cities.

There is one feature in Australia distinc-tive from Canada. That is the large cities having in mind the total population. Syd-ney has 1,844,834 people; Melbourne, 1,-228,923, and Brisbane, 402,172. These three cities contain more than \$,000,000 out of the country's total of 7,580,000.

Australia does not contain an equivalent Australia does not contain an equivalent number of smaller and medium sized cities, or large towns, to those in Canada. The tendency for the urban population in Aus-tralia is to concentrate in the large cities. -Windsor Star.

nurtured within the United Nations to Queen's Lancers had fought in the Napolmultiple within the United Nations to enter a said that the 5th Royal Irish maintain the maximum combined effort conic wars and that the 5th Royal Irish Lancers had fought at Blenheim. Now, The Canadian Prime Minister in graphic their horses and their lances have been unususe described the grave and insidious turned in, the two regiments are joined in one and they are an armored car outfit. Pointing out that there would be regrets for loss of identity, Princess Elizabeth said: "We cannot live by regrets for the past, and I rejoice to think that, as your war record shows, the finest traditions of both

So many try to live only in the past. But, that has gone. Today and tomorrow are the centre of life. — W. L. Clark in Windsor

Cuckoo's Song

Each month listeners in Northern Ireland hear, in 'Ulster Mirror,' a program of recordings made in all parts of the region secordings made in all parts of the region by the BBC's recording unit. Everywhere, that man can go in search of good radio material, up mountains, inside. caves, in cities, towns, and villages, the recording unit is to be found. The purgram recently celebrated its second birthday with an edi-tion made up of interesting items from back numbers. One of them, a particular rarity, was of an inquisitive cuckoo which one day took an intense personal interest one day took an intense personal interest in a microphone that was being used in a certain recording. The bird came up cau-tiously, and had a good look, satisfying himself that the strange thing was perfect-ly harmless, and then broke into song, so providing the BBC effects library with the only really close-up recording of a cuckoo that it possesses.

BELLEVILLE'S LARGEST INSURANCE OFFICE SHOWS STEADY GROWTH

Lorne McDougall Insurance Agencies Ltd., one of Belleville's oldest insurance offices with unlimited facilities for all types of insurance has moved to larger quarters in order to provide thorough efficient service to the general public.

In ten short years, this firm has grown from a small, but reliable agency employing a staff of four to become the largest agenin Hastings County employing a staff of fourteen highly trained insurance specialists.

The key to this firm's increasing business has been its quick reliable, competent and satisfying customer service, coupled with its facilities to write any type of insurance and to insure anything insurable at a moment's notice.

RESULT OF HARD WORK AND KEEN INTEREST IN THE INSURANCE FIELD

This large expansion is the result of neither luck nor chance, but of hard work and consistent insurance research in the best interests of their clients. Client's interest and Company interests demand that the Lorne McDougall Insurance Agencies Ltd., keep abreast of all insurance matters, a policy of this Agency which calls for a very careful study and application at this profession. Keeping in step with the latest developments in the insurance field is a necessity with this modern office. This outlook along with sound business experience is the principle on which this progressive agency operates,

THE APPOINTMENT OF

HENRY PUTNAM & SON

PETERBOROUGH - ONTARIO

AS MAJOR DEALERS FOR

Western Electric Hearing Aids

DESIGNED BY BELL TELEPHONE LABORATORIES

We are proud to announce our appointment as authorized dealers for the world-famous Western Electric Hearing Aids in this area.

Better hearing is our business, just as it is the business of Bell Telephone Laborstories and West-ern Electrio—designers and makers of these re-markable instruments. We can now offer you more complete hearing satisfaction than you've ever enjoyed.

Watch this paper for the announcement of the first of our regular-free hearing clinics at T. A TUCKER & CO., 217 FRONT ST. Drop in and find out how much better you can hear with these truly wonderful instruments. Demonstrations and audiometric tests absolutely free.

TWO HOMES

of life a trace;

When into a home I go, Seeing everything in place;

Prim and rigid all the chairs;

Walls and windows clean Quiet, up and down the stairs;

Not a single stain to show;

Time and space serene:

Vaiting, to myself I say: "It is all too clear, Only old folks, wrinkled, gray, Can be living here."

But II just inside the doo

Skates and sleds I find. And upon the parlor faor Toys of every kind;

If there's clothing strewn about,

Crumbs upon a chair,
And occasion'ily a shout

Startles while I'm there.

While I chat, I then declare I am right at home.

Mother has to comb.

QUICK REST to tired eyes

WOULD YOU CHOOSE THIS MAN. ... to look after your personal affairs?

HIS a successful business man, highly efficient and trustworthy. He sounds like an ideal person to name as Executor of your estate.

But—is it fair to ask such a busy man to look after your family's affairs? Will he be able to spare the time to give careful attention to your estate? Will he be ill or out of town when most urgently needed? And what will happen if he dies?

Estate administration is a full-time job. It requires experience and special training. To make sure of your family's continued

security, name National Trust as Executor in your Will. National Trust, backed by knowledge gained through fifty years' experience, will manage your catate with utmost efficiency and economy.

The smaller the estate, the more important that every penny be made to work to your family's greatest advantage. Your inquiries will be welcomed.

WALK ON THE RIGHT SIDE OF SIDEWALKS

Busy sidewalks, like busy highways, become congested and hard to travel un-less there is some control of traffic. To eliminate accidents and to make travel

stay on the right side of the road. If everyone kept to the right side of the side-walk, fewer collisions would result. Traf-fic would speed up and walking would be easier. That's "Good Citizenship".

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citisenship.

CHIPS OFF THE SPORTS BLOCK

That gives the A and N's a league more of 48 as against 47 for the Harty Pees. The CNR gained three points on the 9th Regt, and are now only one point behind in the loop race. Norman Mills, one of the best consistent deritem in the Jesque scored 122 points with three darts out of a possible 180, while Clare (The Kid) Kennedy scored an imposing 104.

The Midd Nemondry never due impossing 164. The Array, Navy Bean came in few much criticism during the numbers over the alleged statement that they had included the number of the number

BALL AND ROLLER BEARINGS ALL TYPES ALL SIZES

This wonderful brake enables you to ride your C.C.M. bicycle at whatever speed you like-up and down hills and on the level — with perfect control.

When you pedal forward the smooth-acting clutch takes hold instanty — no slipping — no grabbing — just smooth, sure forward power.

Slight back pressure instantly and smoothly reduces your speed and brings you to a quick smooth stop according to the pressure you exert.

The main crank hanger unit and the front hub of a C.C.M. are built with equal precision.

Then, too, the C.C.M. Blcycle has chrome plating over C.C.M. 20-year nickel on all the bright parts with baked-on lustrous enamel on the frame assembly.

These features of the C.C.M. bicycle, backed by over 3000 loyal C.C.M. dealers from coast to coast to give you service, make the C.C.M. the best buy of all — it's the most bicycle for your more.

See the C.C.M. dealer near you.

conditions.

MONTETS DIAGNS:

There is no doubt that Montgeomery set the "tone" of the lighth Army. He hinself even be failure by many to realize what they mean she sight to find boy shooting with all much he was most comfortable. His othe agriculture of the Deminion and to like growth of our forests. It is a lamentable slight to find boy shooting with all makes light to find boy shooting with all reliable shaped and the sight of the first birds which are the best first birds which are the best fireds like armer has to win the battle when engaged in his job of righting against insects and grubs which would ensure the first birds of hot domin-

The birds that return in the spring are welcome visitors here for their summer home, they dine sumptuously on insects and they provide song and yet many of them any destroyed by those who do not recallse that these birds are doing what no other agency can possibly do—keep down the word, the insect and the fly pests, so dangerous to regulation and also to human

Guarantee the birds immunity from be ing shot by thoughtless persons and there will be more birds to do more work as helpers for the farmer in his task of feeding the

Every woodland area, every tree should e a sanctuary for these birds which play to small part in the success of farming and

in preserving the tree life.

Today conservation in many spheres is being urged and on a world scale, especbeing urged and on a world scale, espec-ially, among the great organizations of peo-ples, known as nations. It is a necessity also in respect to wildlife: Give nature and the life ahe has produced every chance and she will spay with increasing num-bers of the flah swarming, the rivers and lakes, the numbers of song birds, and the numbers of animals, the deer and other me, that provide food, fur and a source revenue from the attraction they offer tourists. In fact, wildlife is a rich herid'a source of greater potential rich-

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1968, Edgar A. Guest) CHEERFUL MEDICAL ADVICE

When your hair is turning gray,.

This will surely come to pass, You will hear the doctor say: "You must never cut the grass And when winds of winter b

You must never shovel snow. "Still the dishes you may dry." She may send you to the store.

But your pressure's running high, You must shovel snow no more. And you mustn't rise at dawn Any more to mow the lawn.

"You may sometimes wash the car. In the grate may build a fire,
And, if willing to, you are.
You may even change a tire;
But you mustn't shovel snow,
And must let the green grass grow.

"Heed this warning that I give: These are tasks that you must shun.
Cut no grass, if you would live,
And with shovelling snow be done!"
Which I'd say is nice advice.
From a doctor, worth the price.

"Aw, why can't you guys buy your own Ontario Intellige

Life's Expectancy Rising

Everyone knows that the life expectancy Syreyme knows that the life expectancy to rememore: the attempt, or a gloop or people is much greater than it was one Germans in July, 1984, to assassinate Hi-or two generations ago, Quite often there is a given in the mempapers across the counsigner; in the newspapers across the counsigner; in the newspapers across the counsigner is the property of the country of cades in this expanding country. Seen their traitors.

dress has kepk up with the rising life expectancy and those who have reached higher brackets of age show very much cation in Switzerland of 50 children in the control of the care and education for the care and

remember years when there was a very long day of work, when there were not the long day of work, when there were not the machines and devices to lighthen labor and they, cheerfully, bore their responsibilities. Most of them agree that's bright outlook monitie-has helped to extend thatis years and open they are they see in the long lives of their parents and, grandgarents and their own continued the control of their parents of of their process the century mark. Many can recall that conditions were in olden days not make the conditions were in olden days not make might be considered as healthful as lary forces under a contract granted by its three, are lodely when multiplia and district remedical boards off-neath along with the advance in medical boards off-neath along with the advance in the contract of the contrac making-community conditions and home conditions much more healthy than they

used to be.

Epoch-making discoveries have been made such as the use of insulin in controlling diabetes which formerly was a disease that put a definitely short career ahead of that put a definitely abort career ahead of anyone who left is witten to the introduct Starty progress and improved general, and anyone who left is witten to the introduct Starty progress and improved general, and the starty of the starty o

afar in other climes countries and other foods to the natural products of our own country to make, the of Canadians today advanced to say the least. Then too modern homes are more conducive to health with their improved

sanitation.

If those who are nearing the century mark after having come up through de-cades not so advanced from the standpoint of community health, have been able to reach their years, what will be the effect of the conditions of today on the rising generation whose life expectancy is so much owater than it was to those born a generation or two ago when it was about forty years while now it is about sixty-seven, according to latest reports? Will there be a much greater number proportionately of older women and men? That seems likely according to medical men and other scien

The vounger generation today has come on the scene in an age with many forces at work to extend their years far beyond those of their grandfathers and even of the years

of their parents.

This is a time when the value of the rugged and outdoor life is emphasized. That it will have its results on a lengthier life span.

generally seems certain.

Part of the cause of the greater life ex pectancy is indeed the tireless advance of science, which is battling the diseases which used to claim large numbers. Now corrange prefuterior. Entered to the control of the

An Act of Justice

It may require an effort for most people remember the attempt of a group of to remember Germans in July, 1944, to assassinate Hit-ler, But the families of the generals and others who were executed for their part in

higher brackets of age show very much more of the electrones of younger life than there accessors would have done at the lustice lours. "This, is an act of, quick their accessors, would have done at the lustice lours." This, is an act of, quick same age had they lived as long. Many opinions are expressed by those or heart of their longwish and there is a wide dit. of their longwish and there is a wide dit. of the same age of the secretary and the same agree that which has described the very basic of hard work has not reduced their possibilithmanily, the line believen patient and ties of reaching ninely and beyond. They traitor will remain obscure, says Cirithian remember years, when there was a very Secretar Monitor.

that it has labeled it top secret, and re-fuses to disclose any information.

uses to disclose any information.

The invention promises to make flying (and ultimately motoring) much safer Also it should mean a greater saving in fuel. The great advantage of solid gasoline is that, parado doxically, it is fireproof. - Maga

Giving advice is sometimes only showing

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

TIME AND MAN

"I know he's very nice," said her

mother, "but you see, The time was that your father once

was very nice to me.

I admit he's also handsome, but the years of youth are few, And there was a time, my daughter,

when your Pa was handsome, too. "Take a good look at your father! In

the days before we'd wed was tall and straight and shapely. and had hair upon his head.

and had hair upon his head.
But the years with men raise havoc,
and some day you'll find it out,
Men won't give up over-caling 'till
their first attack of gout.

You are certain that you love him, but I'd like to hear you say You are certain that you'll love him five and twenty years away.

Though today he seems a model from

some magazine or book,
When you've had your silver wedding
like your father he will look.

Aid Goes to Work

Aid Goes to Work

a proof with which the Burgopan Repress and the Surgopan Repress and the Surgopa

will go to work at once.

The sense of security which this aid will provide will react upon the attitude of these peoples receiving it for they have undergone a secies of trials brought on the battitude of these peoples receiving: it for they have undergone a secies of trials brought on the whole and these them and these there patients withse the ideal of democracy before them and these than the builded States and the reaches the second the many the second the provided and frame, if the necessities are taken in the second the many the second the provided that the second the second the second the provided that the second the second

The push is one of the great wents in his-tory. It has in no other age been equalled. Western democracies look with profound sympathy upon the free peoples of Europe which have gone through unprecedented experience in the past few years.

Maple Sap and Syrup

Maple syrup season was not very ex-tended this spring because of the continu-nace of mildness or lack of frosts at the proper time. But the sap has flowed and many have stored away the nectar which they will treasure through the coming rouths. months.

montas.

Possibility its brief season and the association with springtime may have something to do with the honor which is given maple syrup and sugar. Canadians who served in the forces alread in the war reimmehred the impetiting amber symp at
home and rifends and relatives at homes
the product of the interpretation of the
home to the interpretation of the
homes of the interpretation of the
homes of the interpretation of the
homes of the interpretation of the
harrests are so large and because the
maple is as tree of honor in this country.
But United States reddents know it too for
from Vermonit or update New York it
comes down into New York City and other comes down into New York Is a comes down into New York Is a nones, exercise, no matter what commes down into New York City and other lamb given it. It a stretches stomach, centres. The New York Times writer plack, thigh and neck muscles to get item with commuters dashing through a close, stagger down a black to item with commuters dashing through a color had present the commuters and blacky it not wanted does the contract and blacky it not wanted does the contract and blacky it not wanted. to run against or jostle "people debarking with gallon cans." He grows poetical as he recasts a line from Stevenson, "home are

and the flavor rich forever."

An interesting account of the history of the magic product is given:

"Milling the mapic has mingled pleasure and profit ever since, the legendary tree and profit ever since, the legendary comparison of an Iroquote square with the mending of the historia's moceasins. The guest shoots thrusting above the soil assipper boiled away in the hollow log until a thick crust formed on the moceans, and the soil of and a dance were declared to celebrate Moqua's new recipe. Ever since, the sim-mering of sap in the sugar house has been mering of sap in the sugar mote has been a social event. Everybody works, but between labors there may be a dance. At the very least, a 'augaring eff' party is organized by dripping the 'syrup into the snow and making sticks, buns or coils of sugar. and maning succes, buns or could of sugar. To cut the sweetness, a sour pickle is kept handy for the hearty, Old-timers are stick-lears for the right kind of sugar cakes—only the purest and whitest syrup will do. Quebee, Ontaxio, Vermont, New York and Ohio folk live in that happy belt about the Greet Lakes that produces a unbrue

the Great Lakes that produces a unique harvest from the vast sugar bushes in this preferred part of North America.

Wants of Mankind

"What ito you want?" is the great question of life. So says the Monthly Lister of the Royal Bank, showing "how the answer determines the career and colors daily feeling and leads us to view everyons and everything in the light of she effect they will have on this want of ours."

Some of the comments of the writer are:

"The more we have the more widely our ision expands of what we would like to

"Human experience started and devel-oped from desires for better things, and to-day our wants are limitless.
"Men, work not that they may barely live but in order that they may get the

her but in crear that any may get us best out of life.

"There is a psychological hunger for goods that is just as real as physical hun-ger and this is the villain that gets people into financial trouble.

to work for things of value, he cares more

incutation is another need, says the titler, which has not here met. "The thorisandfold complication of human relationships . . has not here met. "The thorisand has not here met. Society has not spanned. the distance between social needs and social sciences in the same way that the gap between physical wants and true white seals selected by the same way that the gap between physical wants on the seals of But there is another need, says the

Enough Exercise

A developing phenomenon is the way families do their weekly anopping, and a man finds himself with these huge, heavy, paper bags clutched desperately to his boson, says Wall Street Journal This is honest exercise, no matter what

he needs.
Seems as though some smart outfit will

recasts a line from Sievenson, "home are comes as though some smart outfit will the hunters, with a pearl of great price-imaple syrup." The writer offers a salute to groceries down a chute, through the open the maple provinces, and adds, "May their yield be high, the grade good, this color pale and the flavor rich forever." "May their work of the same with that advance, and the flavor rich forever."

JUST FOLKS By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

THE DRAWBACK True perfection none can know.
And to seek for it is vain.
North, in winter, it's the snow.
In the South—the hurricane.

Cares distressing will arise, Go wherever you may please. When out fishing, it's the dies. On the beaches, it's the fleas.

Do you revel in the sea?

There is danger that it brings.

Very watchful all must be. For a purple fish that stings.

Sweet and bitterness are twain In the life allowed to man.

Many a maid has paid with pain

For her lovely coat of tan.

es I wish my neighbors would get their dispute settled.

Britain's "Battle of the Gap" In a brochure issued by the United

peace and help recovery in Europe, where Britain works side by side with the United States? The drain is heavy. Last year it cost Britain more than eight hundred mil-

Last year she spent two and a half bil-

Last year she spent two and a nair cul-lion dollars more than she earned.

Her first way now is for increased pro-duction, harder work, to buy food and raw materials. The second way is to cut more and more the things which Britain has aluon meir rood, to ration their cookies, to permicous supersituon. For it will make a ration their fuel, to cut out the gasoline frostbite worse in the end. The scientific for their plessure motoring, to ask them to method is to restore the afflicted part in a accept blitter austerity until the Battle of warm room.

the Gap is won.

Week by week the production figures are rising and week by week the people accept

new cuts.

The people must have food, power, coal.

All Britain's future depends on coal.

Today Britain is producing twice as
much electric power as before the war. She
is building 31 new plants.

tion records in the last months of 1947— at an annual rate of 14,000,000 tons. Her steel workers are working long hours and

manufacture average for all men in manufactors of the sun. Nor is the light to strong for babies themselves. It is an a week. Miners won a five-day week in 1947

—New York Times. a week. Miners won a nve-cay week in a but then agreed to work overtime (or a sixth day) to increase output.
Unemployment hardly exists.

The problem of shortage of dollars is

But "the British people face this great battle with their sleeves rolled up! They are doing all in their power to win the Battle of the Gap." That is Britain.

Nazi Criminals

It is almost three years since the end of the Second World War after six years in Europe and in the interim much has been done to bring to justice those Germans who were guilty of war crimes, among them the leaders.

On Friday at another trial at Nuemberg the conviction was announced of twenty officers of Hitler's S. S. Elite Guards for murder in the connection with the deaths graybeard stern.

of at least one million Jews, Gentiles and Their parents in good time will teach the other persons whom the Hitlerites called racial undesirables, 14 will be hanged.

Associated with the trial lasting seven months was the terrible story of Nazi savagery and cruelty in the mass murders and degradation and crimes to which the guilty submitted so vast a number of unfortunates who fell into their hands in the To keep the children happy they must do wake of the German armies.

wake of the German armies.

The entire set-up which Hitler built up or developed to try to conquer the world and crush freedom by making Germany the dominant state was dictated by the lowest human instincts. Unless it were in lowest human justinest. Unless it were in foolish they can be, the records there might be a chance the And all they ever have to learn and tell world of the future might find it hard to believe the switchness of the crimes the Schemes committed and perpetrated graphs display, against those who got into their hands and to awhom were vented the furry and hard-barriadness of the leaders and their To be their graphs and to show how fool benchmen. But the records will stand and

Land for Settlers

According to a report on a survey of farm lands, in the Canadian West, there are millions of acres of vacant land on the Prairies. Much of this land is ready for nmediate settlement, were the settlers valiable. Much of this land is privately available. Aucn. of this man is privacy owned, but unoccupied. A good deal of it belongs to the railways. The bulk of it was, originally, owned by non-residents who purchased it in the boom days for specula-

They'll Do It Every Time MY! IT'S TAKEN

There are many many reasons why Canadians prefer this ade-in-Canada bicycle — here are four of them:

C.C.M. Bicycles have been completely built in Canada for nearly 50 years which means there is a wealth of experience in the "know how" of bicycle building which spells long years of trouble-free cycling to the lucky owner of a C.C.M.

The three fast-moving parts of a CCM. Bicycle-the front
wheel hub, the crank and sprocker assembly and the rear
wheel hub including the coaster brake, are scourately made
from special steels heat treated and finished to within a
thousandth of an inch. It is because a CCM, is micro-bit
in this way that it is so easy to pedal and runs so smoothly.

C.C.M. Bicycles are finished with several baked-on coats of lustrous, weatherproof enamel.

The owner of a C.C.M. Bicycle can obtain service, parts, accessories and a high trade-in value for his C.C.M. from among the 3,000 C.C.M. dealers throughout Canada.

So - when you buy a bicycle for yourself or as a gift to another, be very sure it bears the C.C.M. trade mark.

set heading "Plain Talk."

Early Spring Days

One third of the month of April has gone and the weather has been fine. It is cool and even cold at nights but the days are generally bright. There has been rain but not so much as might be inferred from the houses. "Acut showers."

not so much as might be interest or more by phrase "Aguil abovers."

From the first day or and there is to be proposed a water of any of the proposed a water of the first of the first of the start of stous for the narmers at work on the sand will be the wish of all Last spring the con-ditions were not as desirable as they should have been as the sowing and seeding sea-son was unfavorable. This year everyone hopes for nature to exercise her most be-nign moods to assist the farmer in his nign moods to assist the farmer in his work of growing the food for the feeding of not only this country but many coun-tries which need our agricultural produc-

Some persons may be inclined to become impatient with the rate of the progress of the season but nature in her own way averages conditions and if conditions were not what were desired last spring, there is the strong probability these weeks will be more favorable than they were a year ago and furnish just what is necessary to start a good growing season.

Preserve Famous Gardens

The quotation is taken from an prucies appearing recently in The Journal under the heading "Plain Talk From England." Plain talk from England these days means actions talk, but though this letter from England is serious it is not stilled or labored but an honest and simple portrait of the British scene, The Journal commends it to readers who would know more of the dilemma with which the British Socialist Government is confronted and which, in truth, hangs over not only all Britain but whose consequences will reverberate around the world, — Ottawa Journal.

A rapid decline in drunkenness in Brit-ain is noted. Police court convictions now number less than 17,000 a year, as against 45,000 before the last war, and 184,000 prior to the First World War. Which seems to say something favorable for war does it? — Stratford Beacon-Herald.

He who would be blessed and happy should be from the first a partaker of the truth.—Plato.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest) IBON CURTAIN

Back of their curtain of steel, Holding all others at length, What do they want to conceal? National weakness or strength?

What are they trying to hide?
Why are the barriers laid?
Why is admittance denied?
Of what are the leaders afraid?

Why for the dark such concern? Is it the people they fear?
What will they not let them learn?
What will they not let them her

Those who must hide always fear Something the light would reveal. Those who have consciences clear Never draw curtains of steel.

Subsidized Press Step Backward Says Mackenzie

By DEWITT MacKENZIE

With totalitarianism perched like a carrion crow on the backs of many stricken countries, we now have the unknppy speciacies of the United Nations Conference on freedom of information at Geneva adopting a resolution in favor jeff permitting government guidelies for national news

ncies: a subsidized press is a mass-per subsidized press is a mass-per sure only 31 of the some delegations veded, the result-ion. Both the United States of music veded sure of the con-traction of the con-cience of the control of the press in their country is ruled ith an iron hand. Of course the solution carried no authority inlien, but unfortunately it does present retrogression.

Irrentees Name

Times without number I've not by seem foreign agencies supersup

to his office to put on the calculated to mislead for-culturated but it generally time. There is no gretier to good understanding g peoples than subsidized "." There is no better aid to than a free press which also real sequantance be-occurries.

CANADIAN DEPARTMENT STORES

Mr. Goodwin's shiny new aluminum wheelbarro His the envy of the neighbours. Junior is as proud as a new aluminum trowel . . . and her smart new garden chairs, sitting so invitingly in the shade.

(Yes, aluminum is a natural in the garden-so light to handle, so perennially rustproof, so enduring. Little wonder it is finding a lot of interesting new uses-in rakes and brooms, lawnmowers and ladders . . . Little wonder the Goodwins' neighbours are determined that from now on their garden tools are going to be aluminum, too.

percock of his miniature version. Mrs. Goodwin dotes on her

Families Forced From Homes By Water's Return

Toronto, April 15 (CP)— All was calm today on the Toronto Islands where yesterday 10-foot breakers hurled tons of water over breakewaters to surround cottages and make lakes of island roads.

A few families who had been forced from their homes yesterday returned today. Islanders were boarding ferries as usual for jobs in the city.

When flood waters reached their blank blank blank and the comments of the city.

past in the present Britain. With the long
shistory of more than two thousand years
with a record of infinite appeals to flowers of the but to augment the ranks of the force
democracy shal freedom, with the lives of
combine great me and swort salve been
handed down as blessings to this age, with
the great word for the riseders in the finish
of setimes, art, much, escaphure, literature

In addition to the attractive material inand especially conferment, there is no

ere is civilization shown in its highest rm. Here is modern Britain, the land of auty, the home of the free who have again and again in history offered all on the altar of freedom that the free way of living may survive to be enjoyed some day by all the dwellers of earth. Her great in-fluence cannot but be reflected in the na-tions around her. She has been the light-house of civilization and she is a great in-

expects to earn nearly \$40,000,000 from overseas visitors from hard currency

Last year all tourists to Britain are esti-Last year all tourists to Britain are esti-mated to have spent about \$120,000,000 in fare-payments made by those who travelled by Britain ahips and planes to the British Isles. These figures are remarkable and they show what a wealth the world is willing to pay for the happiness and inspir-sation of living for a few weeks or months in adion of living for a few weeks or months in the land of that great people who in spite of all the changes of times still sway the world by their influence — all for the good of all. The tourist industry is a rich reward that will help the Isles to pass the transi-tory phase of economic stringency caused by the sacrifices made for the sake of the world's freedom. And as for Britain's ex-ports and the craftsmanship of her workmen and workwomen, as shown in their products which she is planning to export to overcome the present situation, they too add to the reputation of the Briton, for finish and workmunship. Her tireless ef-forts are an inspiration to the world.

There are few people who were not in-rested in the news of two Vampire jet-cess flying from Toronto to Montreal at the rate of 582 miles an hour.

of meet, fifth even nightway speed devel-opment became out of fouch with the speed of the jel-junes.

Such planes have brought the age of super-speed. Wet plane builders look for still higher speeds and with the conquest of the problem that will come with super-sonic speed as has been predicted.

the great, and, mide, scuiplany, literature and expectably government, there is no disease and expectably government, there is no limit to the attraction of these islands "set in the given some "The beauty of Britain and its climate and its climate and the generously and hospitality of the "popula make: the Britain and Britain and the propie make: the Britain and the Britain and

since of law and order.

With the growth of the country and of
the responsibilities thrust upon the fore,
and with development of modern police
methods, the organization's personnel requirements have naturally growt too. It is
to meet these requirements that the current viercuiting campaign is being pressed,
and all aware of the force's splendid record will wish for success of the drive.—

New! Different! Procter & Gamble's

Discovered as a result of wartime research, Tide ampaced even the men of science who discovered it! Tide does exist's abver birst, does defore—washes clothes cleaner than any soop made, yet actually leaves colors brighter! Try Tide for your whole family wash... tro out your worst washedy problems and wasth. Tide laugh them off! Stubborn dirt and grease? Nothing's too dirty for Tide! Hard-water problems? Tide whilst up oceans of suds even in

ONLY Tide DOES ALL FOUR!

I. Washes clothes CLEANER!

Yes, cleaner than any scap! Even gressy overalls . . and grimy play clothes with the dirt ground right into the fashic . . . they all come thoroughly clean? Tide not only leave clothes free from ordinary dirt, but actually removes dingy scap film as well. Tide longthy at stubborn dirt!

2. Gets clothes dazzling white—they're CLEANER!

3. Actually brightens colors—they're CLEANER!

By making dulling soap film disappear, Tide gets your gay print dreases so much brighter you can see the difference! Doe it safely, too! Yos, even with all its terrific cleaning power, Tide is truly safe for all your washable colors! It's amazing!

4. Gives more sudsprove it in your dishpan!

kind-to-hands auds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts greate like maje... washes dishes cleaner than any soap! No scum in the water! No cloudy film on dishes and glasses! That's why they rings and dry no probables clear-

Tide GETS CLOTHES CLEANER

THAN ANY SOAP MADE

-yet actually LLAVES COLORS BEIGHTER

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

THE ORANGES

WITH THE NAVEL!

It's your guide to these

Richer Flovour -- Only the California userel orange gives you richer, true-orange flavour, You color extra delicious juice and esting.

Ho Soeds—Only movel oranges from sunsy California are truly seedless. No waste! No straining! Safer for the kiddles.

 Ensier to Peel—Only California nevel oranges peel so easily, so cleanly. That means extra uses—for lunch boxes or sliced for recipes. Emier to Section—Enjoy the fresh flavour of California, merel oranges as healthful between meals souchs.

It's Easy to Get Your Daily Vitamin C California Navel Oranges are an excellent source of Vitamin C. So no matter how or when you eajoy the extras of these fact winter orangel you get the vitamin C you need to help protect teeth, to help maintain beauth.

FIRST FOR JUICE - and Every use:

Brighter Colour—In the skin and in the juice the brighter colour of this finer winter orange tells you—it's a taste treat!

Gen. De Gaulle Says Italy Has **Only Two Choices**

Sunday's Voting in Italy

Sunday's Voting in flaly.

"There is "citie confidence that Italy will reject the Communist bid for power in the accepton on Sundays That is one of the 'healthy signs of the time.

But has the power, to choose and the probability is that the Italian people will make a same choice. The showing of Ital-'itan' reststance to Communist appeal throughout the eamipsign incluses that that country has realized that her future like with the democratics, not with the 'like with the democratics, not with the lies with the democracies, not with the

Reds.

Italy paid a heavy price for putting upwith Museolini and being dragged into the
war of aggression.

Today her people have indicated that
they are not failing for Red arguments,
the failure of the Communist plan to strike
being proof of that. Her people in Sequite
teel the importance of the decision residing feel the importance of the decision resting on their shoulders and will endeavor to make that clear to the world by the way

New Lives in Britain

Bernard Moore, the BBC's special corendent at the United Nations General respondent at the United Nations General Assembly, told in a broadcast from New York of the progress of the measures to help displaced persons of Europe.

The United Kingdom has been one of

The United Kingdom, has been one of the first governments to send in its report and Moore said: "It shows a remarkable achievement in giving sanctuary to refu-gees and to displaced persons and that at a time of grave economic difficulty. No other courtesy can rival the figure of two hundred and fifty thousand persons who have found new Homes in Britain since the war ended. Many of them are former mem-bers of the Polish armed forces and their bers of the Polish armed forces and their dependants. Fifty thousand of these and three thousand of their dependants are tractly in collection of the properties of the properties of the tractly in the properties of the properties of the properties of the decident of the properties of the properties of the properties of the execution at the rate of one thousand a week. They enjoy the same conditions as British, subjects as regards wages, condi-tions of employment, rations, social insur-tions of employment, rations, social insurance, and so on. Four thousand displaced persons from Germany and Austria have been given refuge and work in Britain They too_enjoy equality with British workers and after five years residence they workers and after new years readence. The are able to apply for naturalization and to become British subjects. Nearly five thou-sand persons had been united with their families in British by the end of 1947 and eight hundred Jewish orphaned children found in Nazi concentration camps are be-ing cared for by private individuals and

voluntary societies.

The British Memorandum urges other governments to do the same. It says His Majesty's Government have no cause to regret their action in opening their doors to these unfortunate people and are confi-dent that other countries which follow their example will find their generosity repaid a thousand-fold."

Tribute of Greatness

"Till go further and place on record my dollars. Reclosed find 4s cents in stamp, conviction, shared, I believe, by the that being half the profit, less postage whole British Empire and its Common-wealth that in Rooserstiv life and by his action he changed decisively and permanently the moral said of mankind by involving the New World incombine of viewed.

By EDGAR A. GUEST the New World inexorably and irrevoc-

ably in the fortunes of the Old."

That was part of Mr. Churchill's tribute at the Pilgrims' dinner on the day when the Roosevelt memorial was unveiled and dedicated in London.

The foresight and vision of the British The foresight and vision or the Erman-leader and his profound knowledge of world affairs and of world history make everyone realise that his tribute to the late President was an accurate measure of the man whose life and influence he said eld as "one of the commanding events in history."

Understanding

Canada's tourist industry can be the most financially profitable branch of our export trade. No less important than the financial benefit is the great stimulus to international understanding and good will developed by travel. There is a tre-

Wealth in Peat Bogs

Although Canada has peat depodes and them in Ontation companion and them in Ontation companion will all about 19 man. — only 34 tons of peat fuel in 1048 and 96,330 tons of peat moss. Were the Industry equivalent, proportionately to population, to the millions of tons produced annually in Sweden, it would require the direct employment, proportionately to population, to the millions of the produced annually in Sweden, it would require the direct employment to the extent that it is used in Germany, thousands of Canadian homes and factories would be burning it. This winter it supplied more than 400,000 houses in the extent that it is used in Germany and the second of the companion Although Canada has peat depodits

has a value, according to one estimate, of about \$9 a ton compared with hardwood or

coal. Its price may be as low as \$8.

But efforts to produce and market peat
profitably in Canada have failed partly because of the high capital expenditure ne-cessary for the installation of modern machinery and partly because of the public's unfamiliarity with the use of such fuel.... Ottawa Evening Citizen.

Man From Missouri

Well, the much-mooted back porch is now on the White House. President Truman, who wanted it so much that he de man, who wanted it so much that he de-fied public opinion in order to get it, is assured of at least one summer's enjoy-ment of his airy perch between the soaring columns of the South Portico, says Christ-ian Science Monitor.

ian Science Monitor.

This may, indeed, be cool comfort for the political advantages he has forfeited by sticking conscientiously to his convictions on such matters as UMT and tax re-

put a rocking chair on the front porch of the White House, but did not "choose to run." Harry Truman of Missouri has actually succeeded in getting a rocking chair onto the back porch, but he still "wants

At a Dollar a Word

Smart deal. Nowadays, with literature in its "Forever Amber" stage, it is not too unusual for an author to realize a dollar a word for his efforts. But 40 years ago, when Rudyard Kipling was reputed to be getting a dollar a word, the public was amazed, says This Week Magazine.

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest)

TARPON

rience has taught me that The tarpon is an scrobat, Or, though I do the best I can, I'm not a skilful fisherman.

At landing bass not bad am I.

I've managed, when I've had them strike Successfully with perch and pike.

The tarpon is a different breed. From batted hooks he likes to feed, Then leap in air, and twist about, And throw the bard and leader out.

My tarpon record this repeats: Four challenges and four defeats; But still it was a thrill to see A tarpon thumb his nose at me.

The job pays \$50 a week and all the medicine you want to take.

Imographic Agent Is. (CP) — The analysis of the Street Island Street Isl An Outstanding Year in Metropolitan's History

"1947 was one of the best years in the history of the Metropolitan Life Insurance Company.

"The Company, financial position was excellent. In Canada and the United States more Metropolitan policy holders than ever before enjoyed the blessings of life insurance. Through investments, the Company played a bigger role than in any preceding year in helping to keep 'the wheel of industry turning... to provide jobs and homes... and to emaintain high, the provide jobs and homes... and to emaintain high, the provide jobs and

"However, the year was not without its problems.

Insurance costs were higher because of lower interest rates, and because of the prevalent increase in the cost of goods

President Leroy A. Lincoln reported these facts in his account of the Company's 1947 activities in a motion

Special Surplus Funds . . . \$ 72,281,000.00

Unassigned Funds (Surplus) . . \$427,276,356.51

This safety fund is made up of:

picture entitled "Pages From An Open Book." Here are some other important facts about 1947 presented by Mr. Lincoln:

—Payments to policyholders and beneficiaries totalled \$671,000,000 — topping all records.

—More than 2,300,000 people bought Metropolitan policies during the year. The total of Metropolitan policy-holders reached 32,384,000.

—At the year-end, policyholders owned a total of \$37,250,000,000 of Metropolitan protection — the greatest amount in the Company's history.

—Metropolitan will pay in 1948 somewhat more in dividends to policyholders than in 1947, although there will be downward adjustments for certain classes of

343,301,733.81

208 752 510 79

156 258 124.20

Mr. Lincoln also reported that last year a correpresenting all State Insurance Departments on as required by law, a periodic examination of Metro.

In their conclusions, the examiners reported:

"The examination of the Metropolitan Life Insurance Company indicates that it is in a sound financial condition."

"Policy claims are paid promptly, and fair and equit-able treatment has been accorded the policyholders."

Metropolitan's Annual Report for 1947, which is entitled "Pages From An Open Book," contains much additional information about the Company's opensional if you would like to have this booklet, fill in and mail the coupon helow. A copy will be sent to you without charge.

SOME FACTS ABOUT METROPOLITAN'S OPERATIONS IN CANADA

on highlights of the Company's Seniouse in the virties during 1947, our 75th year in Canada, will be writesize interest to Metropolitan's Canadian policy-lers and their beneficiaries.

helders and that beneficiaries.

In 1947, Canadiash bought 3209,534,649 of new Life insurance protection in the Metropolitum, bringing the total of the Company's Life insurances in force in Canada to over 2 billion dollars ag the year-end. This amount — \$2,083,391,707 — in mode up of \$500 Ordinary, 1376 Industrial and 1176 Group.

Payments to Policyholders and Beneficiaries

The total amount the Metropoliten has paid to Canadians since it entered Canada in 1872; plus the amount now invested in Canada, ac-ceeds the total premiums received from Canadians by more than \$306,000,000. Total Investments in Canada

Total Investments in Canada
The Company's total investments in Canada amountoft to \$440,303,977 at the end of 1947. Of this amount,
\$1% is in Deminion of Canada Bonda. Since the
close of the war Metropolitan's new investments have gone increasingly to help meet the needs of
industry and the community, just as they were
doing before the war.

Health and Welfare Work

During 1947, a total of 234,835 nursing visits was made to those insured under Metropolitan Industrial, Intermediate, and Group policies in Canada; over 1½ million pamphlets on bealth and asfety were distributed, and the Company took part in 54 Canadian beath campaigns.

€.

Metropolitan Life Insurance Company

NOTE - Assets carried at \$412,000,264.37 in the above statement are deposited with various makin officials under requirements of law or regulatory authority.

Transforms old paint, wallpaper etc. into colorful, suede-finish surfaces for less than \$5 per average room

There is no easier, more economical way of schieving a superb, enduring wall finish than by using Spred. Painted straight over old paint or wallpaper, over stained or faded patches, Spred creates a beautifully soft-bued surface with never a trace of a brushmark. It is sheer perfection. Only half an hour is needed for drying. Then the room is ready for use because Spred has no 'painty' odour:

Now is the time to decorate: Your Glidden Paint Dealer will show you Spred's fashionable new colors.

West Europe United

Western European nations of democracy have signed at Paris a charter for stand a united body to bring about the economic recovery of the Continent of Europe. The recovery of the Continent of Surope. The plant is built upon the needs of rehabilita-tion and progress as means of the revival of Rurope and her economy through co-operation. In the E.P. so organized these nations she the possibility through the betterment of their conditions economic-ally and breathy a potent means of main-taining peace in Europe and the rest of the

Here is indicated a plan which bids suc-Here is indicated a plan which bids suc-cess by the very reason of united action and co-operation. M. Bideault of Trance looking beyond the immediate need and situation called this "convention of Paris" something unique in Bedgaticay of Surope-He went so far as to declare that it would be "the first step in the organization of Europe" of which there has been so much table to meent times.

Europe" of which there talk in recent times.

He defined very clearly the aims and objects, noting that "our action is dictated pects, noting that "our action is dictated only by the will to preserve our independence and our free civilization. By way of economic unification we are building in Europe the indispensable elements of the prosperity and the stability of the

world."

The door is open, said the minister, to all European nations and nations outside the organization should "recognize the complete faith of this enterprise and re-Join us at this table, where our long pa-

them."

The organization provides for full use of recurres for the sake of the nations under this common recovery plan. The agreement sees "programs of production" and the exchange of goods and services, even ment sees "programs of production" and "Berlin crisis," wants to know why the hes exchange of goods and services, even British did not get there first? to the use of manpower among the con-lated in the con-tracting parties to even out labor surplus and shortage in the interests of the con-do why the Russians got to Berlin first.

A potent factor in the success of this plan is the vast sum of \$5,300,000,000, the of all the states associated together.

Visitor Trade

The great value of the visitor trade is not Montreal Berald.

Cong in the Impressive doilar total, but in the fact that the tourist dollar has such sidespread distribution in the nation. The lays assety expert, man, is only three modern of the construction of the nation of the construction of the national dollar from tourism has primary times smarter than a barnyard variety children. And just about a third as smart as a slick child. — Windsor star.

estaurants, 22 cents; amusements, 9 ents; accommodation, 17 cents; transportation, 7 cents; gasoline stations, 12 cents; incidentals, 3 cents.

And then this income is redistributed

rough all channels of commerce and tax-

ery individual in the nation benefits directly or indirectly from the tourist trade. And every individual should con-tribute to the development of the tourist trade, Only with the active support and

trade. Only with the active support and sastistance of the Canadian people can there be growth in this, wital industry. With the increasing trend to vacation with pay, more people than ever will be traveilling in 1948. And competen for tourist business will be more intense, from Europe and from within the United States.

Canada, has enjoyed two boom tourist years as a result of the post-war traveil spec. There are indications that holiday-

spree. There are indications that holiday-ers this year will be more discriminating in ers this year will be more discriminating their selection of vacation areas. The

the time pretent of the contraction of the property concerned with travel promotion in federal and provincial governments, the transportation interests and regional agencies, are cooperating in a stremous program to dereign the Canadian fourist industry, but the final responsibility list of the contract of the contra

tive natural advantages, but there exists OFF THE RECORD an urgent need for the development of all types of scalities for the colorest of the

have every right to treatment here.

In order that a high standard of service be maintained in tourist accommodation, legislation respecting licensing and regulation of this type of accommodation has

been passed in some provinces.

Travel authorities in Canada and the
United States are currenly committed to
a concerted promotional effort to extend the period during which vacationers travel.

This campaign is cartain to benefit resort operators everywhere and encourage the development of new accommodation.

U. K. Making "Steel" Tires

A factory is now being built at Stoke-on-A factory is now being built at 8toke-on-frent, England, for the manufacture of new steel type tires. The body will be of metal and rubber bonded together. The cover, thoroughly pilable, will be less than laft the normal lichteness. Many advant-ages are blaimed for these "metal" tires. They will be nall-proof — a thick pad of rubber between the tire and the sir-flinde lunes tube will show the points of rails inner tube will absorb the points of nails and filints. They will enable motorists to reach very high speeds with the knowledge that the heat thus generated will not affect the "metallic" walls. A softer more resilient ride will be provided and it will be possible to carry heavier loads. Finally the new tire will be a "dollar saver" since less American carbon black (giving the rubber its wearing qualities) will be needed.

He Knows the Answer Col. Alexander Jelisarov, Russian dele-gate to a name-calling conference on the "Berlin crisis," wants to know why the

na storage in the interest of the control of way the reasons get to benin instancing powers.

A potent factor in the success of this two because the Western Allies come has it the wast sum of \$3,00,000,000. The alexancet troops to a specified line, and interest of development of recovery and unitaction of planning for the improvement and picked off the European War's princip

pal prize.

The point is that Col. Jellsarov is going pretty far by taunting his former comrades in arms with failure to get there first.—

Montreal Herald.

A REPORT TO THE PUBLIC

Since May 1943, a labour organization comprised of our own employees, and known as the SWACO Employees' Guild, has represented our employees (hourly paid below the rank of foreman) in collective bargaining. We have had yearly contracts with them concerning rates of pay, hours of work and other working conditions since that time. Since July of last year, a rival, international, organization known as the United Electrical, Radio and Machine Workers of America -C.LO. has been conducting an organizing campaign among our employees and the Ontario Labour Relations Board has directed that a secret ballot be taken under its supervision, for all our eligible employees including those at Tweed, to decide whether the U.E.W. or the SWACO Employees' Guild enjoys the majority support of the employees.

At this time we feel it right and proper to publish this statement of the policies which the Company has followed in the past and will continue to follow.

In many respects we have led the way in Belleville in employee relations both within and Seyond the scope of collective bargaining. Some of the resulting advantages which our employees enjoy,

- WAGES equal to or better than those paid in the district.
- JOB EVALUATION, by which the work content of all jobs is properly estimated
- INCENTIVE PAY which gives the employee the full benefit in pay for all work done above normal effort.
- INSURANCE —\$500.00 of free Life Insurance is provided by the Company for each employee. Group Insurance is provided for sickness and accident, hospitalization for both employees and their dependents on a joint contribution basis
- CANTEEN AND LUNCH ROOM accommodating 150 people, where employees may secure a hot meal or other refreshments.
- A PENSION PLAN for all employees with five years or more service, to which the Company contributes a large proportion.
- REST PERIODS Two ten minute periods each day for rest or refreshments.
- VACATIONS All employees having five years service receive a paid vacation of two weeks benefiting over 100 employees, in addition all others receive the paid holidays now required by law, and had received this benefit for some years before if
- STATUTORY HOLIDAYS During the past twelve months qualified employees have received their regular rate of pay for five statutory holidays.
- MEDICAL SERVICES AND FIRST AID Adequate first aid quarters and equipment in charge of a Registered Nurse, with a doctor on call for consultations. Preemployment examination is made for the protection of all employees.
- · SAFETY With the aid of a Plant Safety Committee comprised of factory employees, accidents have reached a record low, which is one of the best in Ontario.
- SUGGESTION AWARD PLAN Awards are paid employees for all suggested improvements in methods, tools, procedures, etc., which are handled and accepted by an autonomous committee.
- RECREATION FACILITIES We have provided baseball diamonds, tennis courts and other facilities for the use and enjoyment of our employees.

The following appeared on our bulletin board on April 13th:-"By order of the Ontario Labour Relations Board all hourly rated "By order of the Ontario Labour Relations Board all hourly rated, employees of our Company including those at the Tweed plant, on April 22nd, will be given an opportunity to you to rother proup or organization which is to represent them for the next year. One of these, analysis on which is to represent them for the next year, one of these walls and which is to represent them for the next year, and your false, the SWACO Guild, is ouerated and directed by you and your ganization which is to represent them for the next year. One of these, which is to represent them for the next year. One of these was always and your fellow the wall of the properties of the shire of the state of the shire of the SWACO Guild, is operated and directed by you and your fellow employees who shape its policies and determine its objects. The other, the U.E.-C.I.O., is not confined to your fellow employees and its policies and objectives are not wholly within your control. Your Management wishes a majority expression in this matter and would like to see every employ ee cast his or her ballot. Weight and would like to see every employ ee cast his or her presenting you are follow expressions to the purpose of representing your and your follow employees within the Stewart-Warner-Alemitte organization. Consider their personnel, their true aims and the surpose for institute. Consider their personnel, their true aims and the surpose for institute. and your fellow employees within the Stewart-Warner-Alemite organ-ization. Consider their personnel, their true aims and the purpose for which they are to be elected. When you have determined this, vote as you wish, but VOYE."

Western Union

The ideal of a federated Europe has been the dream of many and there have been visious of a world federation. Today in the presence of economic stringency and the pressure of the need of many nations for aid to help revive them and to put them in the preview them and to put them on the control of the control

sed to the plan and has linked up a birth date, lean on the cabinet "to

and inspiration for hope of a revival of European national life and of a federation

"Peace be on Thy House"

Events in a child's life that cause separ ation from one or both parents and a mental environment which gives the child a feeling that normal love and affection are lacking does more damage to growth than does disease, it is stated by Dr. Griffith Rinning in an article - "Per on Thy House" in Health, official maga sine of the Health League of Canada.

Dr. Binning, Director of Schools in Saskatoon, Sask, reveals findings from a study on some 800 Saskatoon school children through use of the Wetzel Grid, a relatively new method of appraising infant and child

growth and development.

He states that the investigators learned that where parents possessed the ability to meet the crists of life calmly and efficiently alone — where parents. ciently alone — where parents possesses a large share of emotional maturity —

large share of emotional maintrity— then neither growth disturbance nor other symptoms apparently occurred so easily. The writer defines emotional security as consisting of "the possession of those strong moral witness that all great religi-ious have landed for so many years—out-per, reliability, sofilessness, loberance for they do not condict too vigarously with our rown moral principles, persistence in de-fending one's ideals, ability to harmonize with others in one's daily tasks." Dr. Binning says that where children possess these vittes as the result of paren-ized strongly, the only way in which bar-last assumple, the only way in which bar-last strongly and the property of the con-traction of the control of the con-trol of the control of the con-trol of the control of the con-trol of the con-trol

come great enough to disturb growth no matter what home catastrophe occurs. Emotional maturity is an acquired char-acteristic, learned from the child's environ-

A portion of the children included in the study at least partly suffered thinness or lack of adequate gain in development and "other symptoms" not from disease nor from emotional tensions in the ho from emotional tensions in the nome.

There were cases where neither existed —
cases that could be labelled "no disease,
physical or mental," cases which the
R.C.A.F. used to label "L.M.F." — lack of moral fibre.

Four-Lane Highway

The idea of the four-lane highway from Toronto to Montreal has not been drop-ped. The interruption of the program was due to the war. Now the Hon. G. H. Douctt. Ontario Highways Minister, states that the highway will be carried on. "United States tourists are accuatomed to good roads," says the Windsor Star and

k for the same when they come to

There are a number of four-lane stretchof highway as every motorist knows slong Highway No. 2.

Such a highway is of much interest to the Province. Window Star notes, 'Good highway are an investment. They pay for themselves, in the 1947-45 fiscal year \$61,900,000 was spent on them and \$59, 948,000 was received in revenue from the 948,000 was received in revenue from the gasoline tax and licence fees. This year \$57,000,000 is to be spent, with an esti-mated revenue of \$55,000,000. These post-war years are unusually heavy years for highway work because construction was halted during the war and the roads al-lowed to get out of repair."

Mechanized Fortune Telling

Recent press releases from the convention of the National Association of Amusent Parks, Pools and Beaches, meeting in Chicago, fell of the mechanised thrills of the shape of things to come. A new and more exotic hulla-hula dancer is to make

peace.

War's end brought a condition of weakened nations and of unrest. The plan for
printed form.

ened nations and of uncess. The plan for printed form.

More elaborate is an ingenious and unat the Marshall Plan holds the door open canny horoscope machine developed by for other nations. Unfortunately Russia is modern science. You set a knob at your opposed to the pian and has linear up a parth date, sean on the cannet were a group of nations who stand aside from the project.

For the West the ERP furnishes means that with the heavens, the machine is able to rap out a shrewd (and always com-

limentary) analysis of your character.

At the modern amusement park, the At the modern amusement park, the only boys who aren't keeping up with the times are the pick-pockets. They don't fool anybody. They still work with their hands. — Hamilton Spectator.

Car Mishaps and Indemnity

Other provinces may note results at-ending the enforcement of a new law affecting motorists in Manitoba, Taking cognizance of cases, quite numerous in that province as elsewhere, in which offending motorists were financially unable to meet judgments, a law was passed pro-vided for collections from motor car owners and the setting up of a fund which

ers and the sexual up would satisfy judgments.

The lery was first collected as an addition to the auto license fee in 1946. Originally the fee was one dollar. Later it was reduced to 50 cents and is now being succession. reduced to 50 cents and is now being sus-pended because, due to reduction in acci-dents, the fund is able to handle any claims likely to come in the near future. The two objectives at the beginning were

financial responsibility on the part of the driving public and a reduction in the num-ber of driving accidents. Provincial authorities claim orities claim both have been achieved.

Among other things most of the motorists who otherwise would not have lione so seem to have taken out private surance

seem to have taken out private saturance as preferable to government action.

For the public there is much satisfaction in knowing that, if one is unfortunate enough to be injured by an irresponsible motorist, as has often been the case, there will at least be one source to which to look for compensation

Other provinces might well examine this
law and its results in Manitoba. — Port Arthur News Chronicle.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

ENVIRONMENT

Environment by man is made. Untouched by rake and hoe and spade. That patch of earth men call a "lot" Would never be a beauty spot.

Heredity the blood stream rules, But men build houses, churches, school Make gardens, and they all are meant To better their environment,

Had man no promptings to improve, He still had stayed in instinct's groove; Had lived his life term as the brute And never planted flower or fruit.

Out of the will for beauty grows The tulip, hyacinth and rose.
Who strength to spade the earth has

spent, Has bettered his environment,

for Kidney and Bladder Troubles

The "Quouset 24" is really many buildings in 38s. It is twenty-four feet wide and as long as you want it, in multiples of twelve feet . . . 24', 36' 48', etc. The front of each twelveof twelve feet. . . . 27, 37 48, so. 1 he tront of each twelve-flot section on he open, equipped with a large free-aliding door, or fitted with a solid panel. End walls offer a choice of solid panels or panels with a window and walk door. You order the combination you want to most your partieular needs . . . as only the fire-resistant, sturdy, adaptab "Ouonset 24" can meet them.

Neopi mind, too, that any naliable material car Ee nalied directly to the inside of the Strav-Steel Iraning, just as the state absenting is nalied to the outlies. It's easy to install insulation board, special fatures, or any kind of equipment that requires a saliable instruct, at things considered, the "Quonnet 20" is a better building boy. . . and fit a wellable NOW Cillio Townies as for complete information.

THE MOST BICYCLE FOR YOUR DOLLAR

For almost 50 years C.C.M. bicycles have been made in the C.C.M. plant. In this way quality is held high and price held down, because 95% of the parts of a C.C.M. Bicycle are made in the C.C.M. plant.

The various steels and other metals that are used in a C.C.M. bicycle are each selected as the best for their job in the bicycle.

The fast-moving parts, such as the ball races and other components, are heat treated to give long life.

All the bright metal parts of a C.C.M. bicycle are chrome-plated over C.C.M.'s famous 20year nickel.

The frame is beautiful with several coats of baked-on lustrous enamel.

3.000 C.C.M. DEALERS TO GIVE YOU SERVICE WHEREVER YOU ARE

Parts and service are available at all times from 3000 C.C.M. dealers from coast to coast,

The wonderful C.C.M. coaster brake enables you to ride your C.C.M. bicycle at whatever speed you like—up and down hills and on the level — with perfect control.

When you pedal forward the smooth acting clutch takes hold instantly - no slipping -no grabbing - just smooth, sure forward

All things considered, a C.C.M. offers you the most bicycle for your dollar.

When you buy a bicycle for yourself or as a when you may a onlyce for yourself of as a gift for someone, compare values, parts-service, dealer-service and price—then you will be sure to choose a C.C.M.—Canada's favorite bicycle for almost 50 years.

C.C.M. COASTER BRAKE
An improved brake by
C.C.M., faster in forward
clutch-action, more pawerful in its smooth, quick stop.
Built of super-strong, hard-

C.C.M. HANGER The parts of this most impor-tant section of a C.C.M. bicycle are machined, hard-cord and finished with ex-

Traces to annexty size sets in one strengthy lost on punnahment but on mercy, shout at present in Palleslate between the antibellurously all the arguments in the Biossaw and the strength of the strength and in a world or relaxed standards, British Moslem, may suffer irreparable damage when the strength of the strengt mit of conflict

an "open city" with a corridor of free ac-cess under the guardianahip or trustee-ship of the United Nations. If something is amp or use Unived Nations. If something is not done there is a general fear that this home of such spiritual importance to the Western World and to the Middle East will

and teachers run. It is pointed out by the New York Times that Dr. Yassky, director of the Hadassah Hospital and thirty-four of the nurses, patients and university teachers had lost their lives in an Arab at-

U. K. Suspends Death Penalty

Britsin's Commons has voted to abolish the death penalty for five years' trial. For the first time in her history this step has been taken. There was a time when many been taken. There was a time when many offences, most of very trivial character, would fring, aman or a woman to the gallows, but public attitude has changed during the generations and, these offences have been dissociated from the impostion of capital punishment. Before the war there was a trend away from canital

perate efforts of condemned Naxi crimin-als to escape the scaffold indicates this

There was a time when executions on There was a time when executions or the scaffold took place in public gaze. For-tunately for the public that age has pass-ed. There has not been a public execution in Canada in eighty years.

The trend in many countries has been

away from capital punishment for murder
but some of the States in the American
She looks on life with vision blurred

The question at the root of the British The question at the root of the British Commons debate was, does hanging act as a deterrent against the commission of murder? It was rightled out that there are murders committed callously and in cold blood after deliberate planning and in the confidence that the preptration cannot be caught while there are other killings causistic of the confidence that the properties causing the state of the caught while there are other killings causistic of the caught while there are other killings causis under stress or exclusions. ed under stress or excitement or passion where the mood of the assailants apparently is not governed by any thought of an able a most attractive plees; consequences until it is too late and the Dame Rumor whispers no man could crimes are committed.

Be that attentive to his niece.

cimes are committed.

One of the questions raised in the British

Give of the questions raised in the British House was the possibility of a person who is innocent being convicted with naturally To wonder it she's wrong or right, terrible consequence to himself or herself. Brifons and others will watch closely Widow and widower at sight, any frend in the five year period whether so not mine, whence you meet proving that the destin penalty does not write the previous of the penalty does not write the penalty does not write the previous of the penalty does not write the penalty does not write the previous previous

of the gallows does prevent some from OFF THE RECORD committing this heinous crime against their fellowmen and society.

beir fellowmen and society.

Dewitt Mackensis, AP press news analest, has expressed the view that "renewa yes, has expressed the view that "entered of the proposal now was I suspect, partly a psychological reaction to all the bloodshed and hasteds which have attended the world war. The impulse was humanitarian and undoubtedly religion entered into it strongly for England still remembers the commandment: 'Thou shalt not kill.' The London Daily Graphic summed up the debate in the British House like this

Anniety for Hony Cas.

There is wanted yell to be in the struggle to a paulianment but on mercy, shone present in Palestine between the Arabos through all the arguments in the Rouse, and Jews the holy dipt of revenament, and times who disagree with the vertical of Jews the holy dipt of revenament, and times who disagree with the vertical properties of the present should draw satisfaction from the fact that

suit of conflict.

No city in the world has such deep religious significance to so many people as axion that the greatest mistake a diplo-lerusalem. A proposal has been made by Charles P. Tatt to have the city declared to soon. Such persons must not say or do It is said to be an undealable political anything in advance of public opinion. They should act with resolution — but only when it is no longer possible not to

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest) DAME RUMOR

Union have restored it after their exper-ience without executions.

The tales she tells to old and young Are what she thinks she saw or hea What's worse, she has an evil mind. And evil is her view of life. Last night a man and woman dined.

The woman couldn't be his wife.

Tis sin alone the dame attracts. There's wrong in everything she sees. She never tries to learn the facts.

no smile for the Postie?

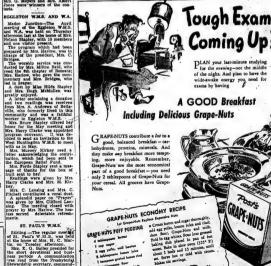

Oh, oh - it's that sign sgain! - the one saying "Postage Due" on the letter. So she shells out a shilling -or maybe some frames or lire, and all for the sake of a letter that hasn't been properly prepaid!

And what a pity – because generally, friends like to hear from each other – but nothing takes the joy out of mail so feet so postage due. Because the ad-dressee – either here in Ganada, or abroad, must pay double the deficiency.

So next time you use AIR MAIL - at home or overseas, be sure to check it for weight.

Today, OVERSEAS AIR MAIL rates are lower Today, O'PENSES AIR MAIL rates are lower than they've ever been in history. A letter mailed to Great Britain, Northern Ireland, Eire and Europe costs only 159 per ¼ oz. This allows about 1 sheet of thin airmail paper and envelope. More than this may overtip the scale—and that means extra postage.

Play safe — don't take chances on embarrasing your friends...or straining business relationships. Always check the weight of your OVERSEAS AIR MAIL before posting.

Victory Over Communism

News from Italy is cheering to the world of democracy, expectally to the maidons of democracy, expectally to the maidons of democracy, expectally to the maidons of Western Stuope and or America, that there is maintained to commission which made "better to dominate which made "better to common and which made "better to common and which made "better to compare the properties of the burnan rand." I want to the summary of the burnan rand. I would be the properties of the burnan rand. I want to the summary of the burnan rand. I want to the properties of the burnan rand. I want to the properties of the burnan rand. I want to the properties of the burnan rand. I want to the burnan rand in the summary of the burnan rand. I want to the burnan rand.

is the result of the atomic-discoveries and firm intention not to be botherwised."

To Hally which has been the scene of the strong all-out effort of the communists to make shert infisions left it must start the strong all-out effort of the communists to make shert infisions left it must take the strong all-out the strong and widely and strong the strong and strong the strong and strong the strong are strong and strong the strong are strong and strong the strong are strong as a strong the strong as a strong the strong are strong as a strong the strong as a strong the strong are strong as a strong the strong as a str

ift has been a "monumental" struggle and victory of the anti-communits parties and Italy has justified the hopes gowing the communits appeal discussions that we would be the summan to people who follow the democratic way of

Hallans have shown their strong earlier to keep their ties with the West was alled to keep their ties with the West was alled to keep their ties with the West was alled to keep their to keep the west their to keep the west failed in a real crists which their to keep the west failed in a real crists which their to keep the west failed in a real crists which their to keep the west failed in a real crists which their to keep the west failed in the was all their to keep the west failed to keep the west failed which their thein their the

strength.

Premier de Gasperf has not only the strength of his own Christian Democratic Party which is far ahead of all the other Farry which is far sheed of all the other convergence which is far sheed of all the other convergence of the same time. has the support of the same time has the support of the same time has also hopes that possibly he may be an approach him this is enough nor results showed the sant-community he may be can approach him this is enough nor leaves the same support of the violes is the same support of the violes in the same support of the violes is supported by the linking elections were the same support of the same support of the same support of the same support of the violes in the same support of the vintervioles in the same support of the violes in the same support

watching the Hanan elections were the anti-communist peoples and also the communist peoples for communist-dominated peoples. The Czechoslovak Red coup of some weeks ago had its influence without the alightest doubt on the voting of the the alightest doubt on the voting of the Italian people on Sunday, for the example of Czechoslovakia, once a proud free na-tion and numbered among the democracies and now in the hands of the Red-dominated government served in this election as a sharp reminder to nations that treatheir liberty to be staunch and guard their rights and social and religious institutions. Italy knew what she 'was doing when she 'voted so strongly against the communist-led Popular Front coalition.

Heat From Atomic Energy

Atomic energy is to be put to actual use in Britain with some of the buildings at the Atomic Research Station to be heated the Atomic Research Station to be heated by this source as an experiment. The sta-tion's director, sir John Cockcrott, is ar-ranging for this to be done by using waste less from the big atomic pile. The heat is generated by the splitting of the atoms in this pile. A cooling process is used to trans-fer this waste heat elsewhere. Pipes will seed it through to the buildings.

This is one of the developments in the most amazing discovery and invention of

most amazing inscret; asmodern times.
Heat is one of the primitive and enduring requirements of life in all ages of the
world's history, Now and then there has
been talk of the possible dwindling of coal
and eil and wood resources of the world
was of the billable land of and oil and work resolutes to the surface and of the surface of the globe so that in time there may be a situation develop in which not enough food can, be produced for the fast growing population of every country

had no small element of the in their nature and could force when the sources of energy might be

closed. If Admic energy seems to be getting down close to the elemental field behind the out-ward appearance of things and people of this age who are kently wares of the marvillous discoveries in relation to the stom have been fold by sciences and many behind the contract of the house of contractions in the contract of the house of the contract of the contract of the house of the contract of the

much Twentieth Century experience to see that "modern" warfare is revolting and that "modern" stupid, more barbaric and unnecessary than the conflicts of the Stone Age.

mankind's needs and deeper yearnings only to blunder toward self-destruction.— Christian Science Monitor.

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

SIXTY-FIVE

He thought it was pleasure he really

desired. He dreamed of the day he could say:

"I've retired!"

"I've retired!"
When young he looked forward (the young always do)
To the time he could wake with no

task to renew, And often when worried and troubled

he'd say:
"At sixty-and-five I'll be able to play."

The day came at last when his labors were eased. His dream had come true, but he

wasn't so pleased As he fancied he'd be, for he said with a sigh:

"Can It be that so soon five-and-sixty And the company rule, from the

ground to the top,
Is that men at that age all their duties must drop.

"I'm strong and I'm able, I'm still at my best, And all that I need is a few weeks of

My vision is clear and my hearing is good. Work for twenty years longer I'm sure

that I could.

That yearning for play was a youthful

Mr. Charles Hudson, who resigned recently owing to ill health.

The members of the Independent Order of Oddfellows here will celebrate the 78th anniversary of the founding of the Order by attending the morning service at the Tabernacle on Sunday. The pastor, the Rev. Newton Hill, will be the preacher.

YOU'D BE SURPRISED

By GEORGE W. STIMPSON INFORMATION ROUNDUP

On March 7, 1825, three days fer his inauguration, President dams wrote: "I signed two hun-ired and fifty land-grants and welve blank military land-serrants."

were managed with the managed warrants.

The President wrote on May 9 of the same year: "Graham, George, returned from his visit to Kenbucky. I asked him to send me from the land office a minute of all the land-grants in blank, and hereafter a minute of the number in which they may

commissions."
It is surprising that the President had the time and energy to list these things in his diary.
"I this day," he wrote October 27, 1829, "signed of land-grants

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guesi) THAT BULGE

Put on the record, and once more Roll twenty minutes on the floor. Now up and down and side to side, With arms extended high and wide. Next, slowly counting: "One, two three! Up with the leg and bend the knee, This count from one to twenty goes:

Bow from the waist and touch your toes.

With arms akimbo, turn and twist. The hips will grow if this be missed. Why in such strenuous feats indulge? It's woman's battle of the bulge,

Procter & Gamble's Amazing New

DISCOVERY made to do your whole family wash

IT'S TIDE

-you've never used anything like it!

Here is a completely NEW washing product-a result of war-Here is a completely NEW washing product—a result of war-time research—made especially to do your whole family wash. Get set for a miracle the first time you wash with Tide—for Tide does made's sever been done before—washes clothes cleaner than any soap, yet leaves colors brighter! And get set for a surprise when you first see Tide's wonder suds! They look different, feel different . . . they billow up thick and fast even in

ONLY Tide DOES ALL FOUR!

1. Washes clothes CLEANER!

Yes, cleaner than any soap made! Dump in the greasy overalls, the grimy play clothes . . . watch Tide's amazing sude go to work! Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well! Try Tide next washday!

2. Gets clothes dazzling white—they're CLEANER!

Wait till you see the daxiing whiteness Tide gives white clothes! And sheets, shirts, pillowcases keep their gleaming whiteness, week after week!

3. Actually brightens colors—they're CLEANER!

Wait till you see your colored clothes come out with that spanking clean shining bright Tide-washed look! Tide actually brightens your gay prin dresses! Does it safely too! Yes, Tide is safe for all your bright washable colors

prove it in your dishpant Kind-to-hands suds! Faster auds! Longer-lasting auds

Advance in U. K. Export

Britain's record export trade last month has been also a record quarter for overseas has been also a record quarter for overseas, shipments. The volume of exports in the first three months of this year was about 21% above 1933. The previous best was in the preceding quarter when exports were 17% above 1933. Quarterly figures are a more reliable guide than monthly ones, which are subject to seasonal factors, dif-ferences in numbers of working days, hold. ferences in numbers of working days, holi-

days.

March export figures, although record March export figures, although record, were far exceeded by imports which had a value of just over \$712 million. This figure is the highest recorded for 28 years with the single exception of July 1947, and the resultant trade deficit at over \$204 million is the biggest in any month since

September.
On the export side, however, these latest winns show that Britain is already more than the state of a returns show that Britain is already more than half-way to her year-end target of a 50% increase over 1938. Moreover, the vol-ume of exports during the first quarter fell little short of the level aimed at for the whole of the year, that is, 30% above the

whole of the year, that is, 30% above its has prewary says. Bit thin's leading expert so far this year is again machinery, the total tonnage experted in the quarter being the highest on record and nearly three-quarters more than in 1933. It was closely followed by the whileder group which covers is locomodries, aircraft and ships, as well as motor-commercial vehicles, motor-cycles and bi-

one feature of these latest returns is the advance in textile exports

Conserving Power

The people of Ontario who recently had The people of Onkario who recently had a first press of the trial of having power miscone by the in above, the way some golders make it appears to the present the present power of the present power as fuel generally and no doubt much was wasted. Then came coal and coal oil and gas. Finally comes electricity, the easiest of all energy to handle and therefore most easy to waste by just letting the light b er a switch on the range left unturned for

It has been impressed upon the people by the Ontario Hydro Electric Power Commission that the problem of the supply of electricity has not ceased to be a problem therefore it is hoped that people will

mserve energy. Recently Chairman Saunders of the On-Recently Chairman Saunders of the On-tario Hydro Commission pointed out that if a 100-watt light bulb is left to burn need-lessly for 24 hours, it means the wastage of no less than 15,500 gallons of water. Wasto of electricity therefore is waste of the vol-

of electricity therefore is waste of the vol-ume of water which is stored up.

Any saving in-energy in the not long past period when power had to be saved by the pulling of switches has meant a saving in expenses of lighting and cooking as con-sumers will find by their hydro accounts.

Saving in the coming summer and aut-umn months can have a considerable effect upon the storage of water and the prospect for the coming winter's light and heat.

Prison Records

During the year ending March 31, 1947 there were committed for trial in Ontario 32,541 persons, of whom 25,355 were sentenced to prison, according to the annual report of the Department of Reform Instituitions, the latter figure being consider-ably higher than the total of persons sen-tenced to imprisonment for the previous year, namely 21,614. Most of these in-creases occurred in the category of crimes against order and peace, where the in-crease was 3,359. In the other crimes in the three main categories — crimes against person, crimes against property, and crimes against public morals and de-cency, the variations in number were com-

noted that the increased number is noted that the increased number entences was mainly in those of short ation, three months and under In-

definite sentences were lower from 1,508 to OFF THE RECORD

commis sentences were room 1,008 to 1,209.

The report of the Deputy Minister refers to the widespread effects almosphi the Frortisse to reduce delinquency and crime to the videspread effects almosphi the Frortisse to reduce delinquency and crime is writeness to reduce a commission of the results of the r

females.

Commenting on the report, Deputy Min-Commenting on the report, Dopuly Min-tests Rechands say, "these statistics do not record the degree of seriousness of any par-ticular crimes. Many crimes may be in the same legal catégory, but one or more of these crimes, because of their sensational features or victousness, may attract much public attention, consternation and indig-nation, while most of the other crimes in the control of the control of the control of the control of the crimes in the most of the other crimes in the most of the other crimes in the most of the comments. the victim and the perpetrator and the State all lose. Therefore all gain when crimes and delinquency are prevented and when law breakers, through rehabilitation become good citizens

Finders Keeners

An interesting case is now going on in Britain over golf balls. It seems that last year a gentleman named Herbert was found on a golf course with a pocketful of golf balls. Although he claimed to have found the balls as a result of diligent search, he was brought into court and

search, he was brought into court and fined a pound.

Herbert has now appealed the case to a higher court. During the course of the ap-peal the presiding justice made a remark which shocked British pollers. The justice said: "If picked up a golf ball while walk-ing across a common and put it in my pocket, I ahould not blink! I had been guilty of laceros." On modifice securable

The justice, a non-golfer presumably, takes it for granted that anyone who hits a ball in such a fashion that he cannot find it, really does not want it any more. In short, the way some golfers smack a ball is tantamount to throwing it away. We

A foreign correspondent brought us this G. B. Shaw story which we never heard

before:
The bearded playwright had sent Winston Churchill a pair of tickets to his latest
play, enclosing a typical caustic message:
"Here are opening-night seats for you and
a friend — if you have one."

Churchill replied promptly, returning the tickets. "Sorry, I'm unable to use the tickets for the opening night of your play," he wrote. "But I'd appreciate tickets for the second night — if there is one." — This

PENICILLIN AND COWS

Penicillin is being used in Britain to treat cows suffering from bovine mastitis. The results have been excellent. This was revealed by the director of one of the Ministry of Agriculture's research stations at a meeting of farmers in London recently. Bovine mastitis is a disease possibly re-sponsible for more loss of milk and milk products than any other.

How is it possible to expect mankind to take advice when they will not so much as take warning?—Swift.

AFTER THE BAIN

Not All Pensioners

"Okay, wise guy — You give him a bath."

LOOKING BACKWARDS GLEANINGS FROM OUR FYLES OF BY-GONE YEARS.

AS WEARS AGO

SO YEARS AGO

TA VEARS AGO April 34th., 1928

Mr. N. P. North, formerly of Belleville, who was promoted to the position of Superintend-ent of the Hortpayne Division of C.N.R. has again been pro-moted, this time to the post of superintendent at Port Arthur. Mrs. Harry Langabeer has left to visit friends in Toronto and Orillia.

Mrs. Clarence Aulthouse and daughter, June, of Lindsay are visiting the former's parents, Mr. and Mrs. Thomas Hender-son, George Street.

Mr. and Mrs. R. J. Peoples of Smiths Falls will spend the weekend with Mrs. Jennie French, Burnham Street.

The proprietors of shoe re-pair shops, here will commence the weekly half holiday obser-vance on May 2nd and will continue the holiday to the end of September.

30 YEARS AGO April 24th., 1916

Among the recent graduates at Queen's University, King-ston, the names are included of Miss Myrle J. Clinton of Bloomfield and Miss Ruth Wall-bridge of Picton. They received the degree of Bachelor of Arts.

Mr. R. E. Butler, prominent business man of Woodstock, is the guest of Mr. and Mrs. Percy Millard, Everett Street.

Roche Percee. Sask., Stands As Ghost Town

Birniati Saik. April 20—(CP)

The nearby Southwestern Sazachewan maining town of Rose
Percee today stands as a ghost
own, following a weekend so
trising flood waters.

Except for one man, on watch
it the railway station on high
the control of the sazached
to maining the sazached
to main southwestern miles south of this near-border town, was completely abandoned.

der town, was completely abandoned.

R. C. M. P. volunteers Saturday
rode the streets of the lown in
residents trapped in their beds by
a sudden avalanche of water
which swept down the Souris
River from Estevan.

The water swept in on the town
at midright Priday and long before daybreak Saturday the main
street was under four least of

water.
Last night, the waters were slowly receding, with a drop of six inches reported during a 12-hour period. The rampaging waters, however, left in their wake hundreds of thousands of dollar in damage to homes and mining

Royal Wedding Anniversary

Today, April 28, is a happy day in the British Empire and Commonwealth on the occasion of the 25th anniversary of the marriage of Their Majesties, the King and

size of the people and to the people every when the people is in spring and what spring gives. A writer of the New monter, was at two lows at commont, which was not people and the people of the New monter, which the people saptire as they regard the happiness of the King and they regard the happiness of the King and the people of the pe whom they reign.

whom they reign.

The quarter of a century since they were week has brought many changes. His long against continuous properties of the Throne unexpected in the office of Sorreign placing upon the history since the Throne unexpected in the highest continuous properties. The big hyacinth, for instance, came the Michael and sidings to the duties of ward from Girece into Asia. The name than the highest of York, During their like the side of the continuous properties of the proposition of the properties of the proposition of the proposition of the properties of the proposition of of leadership. So great is the devotion of or reaccramp, so great is the activation of the British peoples to their King and Queen and this has been shown on many occasions. Recently the royal wedding of Princess Elisabeth focused the eyes of the World on the King and Queen and the Throne to which the people are intensely

On that wedding anniversary attention On that wedding anniversary attention of the British peoples and of peoples of other nations is directed to the happy home life of the King and Queen and their two daughters. The royal household has been a model home, it is the British ideal or a nappy life of lore and affection and construction ago, construction ago, dicates how the King and the Queen entersent instinctively the ideals which are the locals of the homelite of the people of Britain. That private life has never labled without them."

Britain. That private life has never labled without them."

Britain. Their private life has never laised to exalt the hame throughout the twenty-five years of their married life.

This happy couple who have entrined in their lives British ideals have the prayers and best wishes of millions of Britons and of people of other nations outside Britain on this glad occasion in their Majesties' lives. To King George has their majestes lives. To king George has fallen no light burden of responsibility in office. He and Queen Elizabeth have by ex-ample and by devotion-to their duties and office served the people of the Empire and onwealth no bly and devotedly and they reign in the hearts of their people.

Cleaning Up

Many persons need no urge to get to work on their lawns and gardens. But others do not feel such an inclination and let time slip away when they might be doing a little work after the relief which spring has brought in taking off the shoul-ders some of the winter's tasks such as clearing driveways and walks around the

house. Sooner or later however most people get around to the task they feel they ought to perform, clear away rubbish, get rid of accumulations in basements or attics which somehow have a penchant for collecting the great assortment of rubbish which many, persons have an aversion to discard, the

The average citizen will no doubt find a tle work he can do even if he does not

have to plek or rake up a great deal of OFF THE RECORD

and the place of the place

some.

So there is that little job which if serryons took a share in it on his own property would enhance the beauty of the lot, of the street and of the entire community.

sociation of the 38th anniversary of the survivage of the 18th and Queen, who at that time were the Dular of Yark's and that time were the Dular of Yark's and the lay which the Empire inliticary peoples feel at this happy time, at the property of the world there have come messages of congratulation and wishes for long years of continued happiness. It was at Westminster abbey that they were wed at Westminster abbey that they were well as ceremony which attracted the attention of the world.

Their devotion to our another and to be such that they were the survival that they were the survival that they were the survival that the well-than they were the welf-world them wery close to the late of the present that they were the welf-world to the further in the well-tare of the present and the propin every where.

Welf-world that the well-tare of the present that well-tare of the present and the propin every where.

Welf-world that the well-tare of the present that well-tare of the present the well-tare of the present that the well-tare

dooryards are, with few ext

versions, at least, of its origin. One is that it was the flower which sprain from the blood of the tragic youth, Hyacinthus, when he was islain. The incre likely origin is in the ancient name for a preclous stone thought to have been the supphire, in which case it would be one of the many

color-names.

"And the narcissus, in its various forms, is native to both the European and African shores of the Mediterranean. Most of these shores of the Medilterranean. Most of these we cultivate loads, however, are of European origin. The waterlies are almost control to the control of the cont

DOCTOR JOKE

Out of the room the doctor came

And met me in the hall. And then he spoke that ancient joke Of doctors one and all:

'You'll live." said he, and orinned at me Though grandpas groan, of all I've

known I haven't lost one vet.

"I've had them pace the corridors. I've heard them fret and fume, And I maintain, less fuss o'er pain Is in the mother's room.

Unto a man, the grandpa clan
Is one with fear beset.
Though sad their state the while they

I haven't lost one yet."

"Three times I've heard that ancien wheeze," Said I, "and this makes four.

Should ten arrive and I'm alive,
-You'll spring it six times more.
Get back in there, with tender care Your skill and wisdom Until you tell me, 'All is well' This grandpa you may lose."

"You win, George - Mother won ; so along on th

GOOD CITIZENSHIP is a lot of little things

RETURN BORROWED ARTICLES PROMPTLY

To be able to borrow some wanted article is a privilege of friendship: And article is a privilege of friendship. And failing to return it promptly not only endangers the privilege but the friend-ship as well. You expect—and rightly

so—that your friends will bring back the things they borrow in good condition and in good time: If we are to look for such consideration, in others, we should set the example. That's "Good Citizenship":

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citisenship.

MODERATION

. . THE GISDOM OF MATURITY

True, we are a young country. In less than a century we have risen from colonial youth to nationhood of a stature enjoyed by no other people of our numbers.

Canada has earned #

this. Through the years we have kept our sense of values . . . been moderate in our pleasures . . . moderate in our thinking.

Today, we continue to bear

ourselves with the self-respect of a moderate people. We are moderate in our spending, in our thinking . . . moderate in our pleasures, moderate in the enjoyment of whisky . . . moderate in all things.

We are young, yes. But we have come of age, for moderation is the wisdom of maturity.

> Mon who Think of Tomorrow Practice Moderation Today!

Refund on personal income Tax for 1942 (computery swrings). \$63,000,000 Cash from War Savings Certificates motiving in 1948. \$45,000,000 \$63,000,000 -

IF SOME of this money is coming to you, think before you spend it....remember how hard you worked to save during the war years. Remember, too, that all this additional spending power, if translated into immediate buying, would almost certainly increase friens and your own cost of living. Rather, put the money you receive into your savings account, or — better still — tuck it away in Canada SAVINGS BONDS. This way you help keep prices down and at the same time maintain a nest egg for your own future security and needs.

"Framms." some stud lost their mences in the year 1947. The number of those who are being deprived of the licence to drive indicates the need of serious consideration by every-one who drives as to the need of every po-sible safeguard and caution being adopted

on the roads.

15 has been pointed out that a large transport company recently found on the last lap of its run its accident rate increased appreciably. Tests were made and the reaction of the drivers was found to be 35 per ceits lower than at the bestering of the company of reaction of the drivers was found to be 35 per cent lower than at the beginning of the trip. So completing their run at a city some distance short of the original run drivers produce the result that accidents n off in number. The moral is that

fatigue slows reaction.

Application of science to driving is in this way indicating a great deal of information which can be used as a guide by

More Trees

There will be more than 14 million trees distributed in this Frevince from the nur-series at this time. They are for private planting, municipal forests and school told us: "It's a boy!"

The objective is reforestation or source.

In objective is reforestation or source.

and Betty's three,
and shelter belts for farm crops, snowbreaks to ______making fun of me.
protect roads and control erosion of soil They told you: "Don't be bothered by hir which has been much to the fore in parts of the country. That the growth of forests acts as safeguard to water supply in another of the benefits derived from a vigor-

ous tree-planting program.

In this part of Ontario there is a wide interest in this pass of the task of aiding in the building up of new timber and for-

Commenting on the developments in Oxford County the Woodstock Sentinel Oxford County the Woodstock Sentine-I The bablier guardian angels called you in Review points out that "the Upper Thannes Valley Conservation Authority has worked I was sure the while you saw me in the out a program for reforesting 25,000 scree, some of which will be in Oxford, over a proportion, of 21 years. The trees will be provided of 12 years. The trees will be ways returded on 6 grateful, with manner as for municipal forests.

Oxford now has about 570 screes of Town of the county-owned forests all planted with the

recent years an increasing percentage have gone into new .county

> Tree planting deserves and needs th Tree planting deserves and needs the greatest public support. It deserves support because without a tremendous increase in planting in the next few decades, a very large acreage of our land is going to revert to worthless, and dangerous

Humility and love are the essence of true religion; the humble formed to adore; the loving to associate with eternal life.—

"A Good Place to Deal"

It's a private, matter

Your bank is there to serve you in a personal, private way.

When you make a deposit your passbook is closed to anyone but you and your bank. When you arrange a loan, that is strictly between you and your bank. When you discuss private financial matters with your hank manager, you know they will stay private.

Such privacy is the very essence of Canadian banking. It permits you to deal with your bank and to use its many services on a basis of complete confidence and trust.

SPONSORED BY YOUR BANK

TODAY, Canada's merchant navy ranks fourth in the world-next to those of the United States, Britain and Norway. Our ocean-going tonnage is now four times as great as before the war. In 1939 we had only 35 regular ocean-going ships on our register.

Now there are 153. The total of all our ships of over 1600 gross tons (including upper lakers, canal freighters and coastal passenger vessels) is now 386—representing over a million and a half gross registered tons of merchant shipping! That maritime achievement is typical of the tremendous industrial and commercial developments which have created new and greater opportunities for all Canadians right here at home in our own country today.

G. m. WOOD rased sufficient money in 1923 to buy a tiny Toronto soap plant employing two workers. Since then his energy, industry and consistent emphasis on salesman-ship have built his company into the biggest sanitation products organization in Canada, manufac-

felt that business success comes from a combination of initiative salemanship and harmony between labour and management; and nowhere is that combination more certain of achieving results than right here at home in our own country now.

Botwoon the wars, Canada built no sea-going ships of any size. Today we have 17 major, fully equipped yards, with over 100,000 tons of ship-

Only one-olghth of the total cargo entered and cleared at Canadian ports was being carried by Canadian ships before

responsibilities. One of the strange things is that a land with so many streams, lakes and rivers as Canada possesses has so lakes and rivers as Canada possesses has so many people, especially adults of course, who cannot protect themselves in the wa-More young people can swim today

than ever. Fortunately many early in life learn to for the BBC Ruspons affering branch award Tanks to the agency of Y.M.C.A.'s to Norway during that country's occupant Y.W.C.A.'s and of the Canadian Red in the Canadian Red in the Canadian Red in the Canadian Red in the Creas which has taken up the work of the Creas which has taken up the work of the Creas which has been an indication of their graditude for Norway during that country's occupant Y.M.C.A.'s Norway during the Crease Y.M.C.A.'s Norway during that country's occupant Y.M.C.A.'s Norway during that Y.M.C.A.'s Norway during that Y.M.C.A.'s Norway during the Y.M.C.A.'s Norway during

It is a commonplace thing to say that those who cannot swim should be very careful where they go to bathe in river or creek or in the vacationlands but they might seek instruction that would enable them to protect themselves and possibly be able to help at some time others who get into difficulty in the water.

What We Breathe

"The Air We Breathe," an article in In-dustrial Health," points out how health, comfort and efficiency are greatly influ-enced by the air we breathe. Abnormal variations in its composition or tempera ture hinder the proper functioning of our

Research in factories and mines has Research in factories and mines has shown that unsatisfactory atmospheric conditions, besides causing discomfors, lead to reduced production, increased sick-ness and higher accident rates.

mest ann migner accident rates.

In industry the need for ventilation arises from the continual production of air contaminants. Among these are substances given off by the body which may cause discomfort or ill-health. Persons suffering from contaging discount of the production of consonance or m-nearch, remons suffering from contagious diseases, colds and influ-enza, for example, discharge germs during coughing and sneezing which may be sprayed into the air and carried about by air currents. In this way diseases are scattered by infected persons.

Such a hazard as the shove is controlled by proper ventilation and the prevention

of overcrowding.

The three factors of comfort — temperature, humidity and air movement — have been combined into a single index known

been combined into a single index known as the effective temperature.

On the question of minimum fresh air supply, it is stated that fresh air supply should be at the rate of about 1,000 cubic feet per hour for each person. Where only a few persons occupy a room an adequate rate of air change will be normally obtain-

ase of all change with the immany obtain-ed by leakage around doors and windows, while it can be easily secured in warm wea-ther by the opening of windows. Modern industry and science study such problems. It is realized that as water sani-tation is an essential public health feature in the modern community, so air sanita-tion is becoming an established part of hygiene practice.

Floods in West

Western Canada has had its ordeal of floods, with loss of lives and destruction of floods, with loss of lives and destruction of property, buildings, livestock and produce. Somewhat earlier parts of Western On-tario suffered heavily from flash flood during the spring break-up which sent the swelling waters down precipitously upon

swelling waters down precipitolisis upon the lower lands.

The eastern part of Ontario was singu-larly free this year from the visitation of floods, for which the residents are grate-ful. The east sympathizes with the west rill. The east synathizes with the west where the floods were the worst in history. Last Sunday in the western part of Canada ten lives were lost; of whom six were children. Parts of Ontario have been long familiar with the pattern of floods which are written in local history, and in the memory written in local history, and in the memory

State Broadcasting), which worked in close relationship with the BBC in Britain during the war, has marked the occasion of the Corporation's Silver Jubilee by offering to ten members of its staff a four week holiday in Norway this summer. They feel this to be an indication of their gratitude

This most human and generous rithuis from one broadcasting service to another was warmly welcomed by BBC staff everywhere, and a bullot was held to determine which ten employees should be lucky entered to be a bullet with the county to entry a holidary in Koway, with a bullet was limited to these who had been in the Corporation's service since 1940, the part in which Norway was invaded, and one thousand three hundred and thirty-four wided into four classes, output, engineering administrative, and clerical staff, and the Norwegian Charge d'Affaires camé to the Norwegian Charge d'Affaires camé to the Norwegian Charge d'Affaires came to the norwegian Charge d'Anaires came to Broadcasting House to make the draw. He was welcomed by the BBC's Director Gen-eral, Sir William Haley, and he then pro-ceeded to the Council Chamber and very thoughtfully stirred up the contents of the baskets, before drawing the ten

numers.

. The winners came from many parts of
the BBC. All ten will have a month's holiday in Norway at any time they care to
choose, and in the case of those not normally entitled to four weeks' leave, a speclal concession allowing it will be made.

To the thinker the most trifling external object often suggests ideas, which extend, link after link from earth to heaven. —

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest) THE FIRST LETTER

When I was but a little lad I'd see the

posiman call

And watch my mother take the mail,
with none for children small,

. I wondered as she read them through how old I'd have to be Before among the letters she'd dis-cover one for me.

And then one day the first one came-

a letter all my own—

Though much has happened down the years, no sweeter thrill I've known.

Importance rides with little things, especially with a boy. The first of almost everything is tinged with pride and joy. The first watch is a brighter one than

all he later buys.

The first red sled and bicycle he'll view

with glistening eves: But on his face I'm sure will be the

widest, proudest grin, When that first letter with his name the postman passes in.

The years have swiftly come and gone since I was wondering when A letter meant for me alone someone

uld think to pen. would think to pen.

Today the mail keeps piling up from friends afar and near,

And some I read with eyes aglow and some with sigh and tear.

But now, whatever word may come, the thrill is not the same As that I knew when I was young and that first letter came.

One Month's Grace

One Month's Grace
Hereshouts the announcement of the decision of, the Income has 'authorities at to Otlans' to allow one month's grace this year for the filling of 1947 return's will hayear for the filling of 1947 return's will haturally not 'affect.' a great many, except some of those who had yet to put in their statements, alone the statement on Wednective afternoon, april 1940; was within the days of the round date. Those who the months' grade and notes will delay in making the grade of the will delay in making the grades of their will not doubt not wall for the end of nost month to make their statement of income.

us for the end of next mount to make eir statement of income. Those who have made their returns are sased to have this annual exercise of eparing the statement of income already preparing the statement of income already dealt with, since to many it will always be an ordeal, however simplified the task is

ade by the revenue authorities.

The postponement of the final day by The postponement of the final day by thirty-one days, bringing the desdillne to May Sits will be, as explained in the announcement of importance to those in certain areas whose predicament brought about the postponement. The causes are the difficulty of distribution of forms in certain parts of Canada where weather conditions have interfaced and over weather conditions have interfaced and over weather conditions have interfaced and over weather conditions have interfaced and the contract of the condition of the canada and the condition of the condition of the condition of grace is allowed only to individual bacapayers, not to those making instalment payments.

April to May

May comes. It is the merry month, not only to the people of the British Isles who have always called it merry but also to the people of Canada and the United States and the European Continent. For May has a winsome way about her that no other sea-son has. March is too mixed of storm and snow and rain, April has not the true and snow and rais. April has not the true and full stature of springtime in the feelings of the people. But May brings the colors and the flowers and growth and for this reason if for no other this month is one, of the most appealing of the entire year. The British poets have sung the appeal of Maytime and about this month still these transport in the Color in the Color.

of Maytime and about this month still linger many of the customs in the Old Country. The poet Milton in his early works exalts May. In his poem "On May May he has to be seen to be a seen Morning" he says:

Comes dancing from the east, and leads with he The flowery May, who from her green lap the The yollow cowallp and the pale primrose. Hall, bounteous May, that doth inspire Mirth, and youth and warm desire; Woods and groves are of thy dressing, Hill and dale doth boast thy blessing, Thus we salute thee with our early song And welcome thee, and wish thee long."

English games are called to mind by the line of Tennyson:

'Tm to be Queen of the May, mother, I'm to be Queen of the May."

Pictures of the village green and the maypole are called up in the mind at the tion of May.

The incoming new month will bring many things that April lacks, it gives something of the fulness of reviving life in the fields and gardens.

William S. Knudsen

Wm. S. Knudsen, one of the great indus-trialists of the United States, who had a large part to play in building up American and Allied industrial/girength in the Sec-ond World War, is dead at the age of 69, mourned by the people of the United States and other peoples for what he had achieved in the cause of freedom of the world

against the Nest aggression. In the worm
In the greatest crisis in world history he
was the man ready. for 'the greatest job,
which, according to the New York Times,
was to get things done. "He had a gent
for getting things made in a hurry. That for getting things made in a hurry. That was his greatest gift to the vast co-ridination required by the war. No man ever worked faster to init together the hige machine which turned out the tools of victory. Tanks and planes, trucks and

tohimy-guns — he had the formula to OFF THE RECORD

ichimy-guns — He had the formula speed production."

He was not a native American not be to speed uponduction. He was not a native American not applied was absenced. He was born in Desmarks, a land, whether the world. He had had been also also the same the company of the speed of the same with the moderating of America he had a great deal to do and became president of the next Motors. Yet the lag-rice and the parts of the first world against the Mais and Fascists.

His characteristic bepeak the man. On

against the Nams and Sacrata.
His characteristics bespeak the man. On coming down the gangplank when he landed in America he was told to "hurry. ianded in America he was told to "hurry up." The Times coments, "From that time he never ceased to hurry." His work "was enormous for he armed the free nations of the world."

Started Young

Our forefathers would have thought it a little curious to read recent complaints of the "cramming" of nine-year-olds. Ha: something happened in modern life to re-tard the acquisition of knowledge? It was not only Royal children in the sixteenth century who were crammed almost from hirth so that a visitor to the future Queen Elisabeth, then six years old, was aston-ished by her erudition. Her sister Mary was even more advanced.

was even more advanced.

John Stuart Mill began Greek at the age
of three. Mr 1820 Lord Egremont mentioned going to a preparatory school at six and
leaving it at eight for Westminster. Gibbon. leaving it at eight for Westminster. Gibbon, going to school at eight, was admonished by his mother that "I was now going into the world and must learn to think for myself." Of Charles James Fox, "very arguentative at five," it was written

Born a disputant, a Sophist bred, His nurse he silenced and his tutor led

Waiter Scott "acquired the rudiments of reading at a day school in his fourth year." In fact people who were educated at all seem to have been a good deal "eram-med" long before they were nine. — Man-

Churchill's English

In the British House of Commons the other day Glenvil Hall of the Treasury re-marked on Winston Churchill's "forceful if not grammatical English," He related related what the former prime minister wrote on the margin of a document by

way of disapproval.

It might be supposed he would write merely "humbug" or "balderdash" or some other epithet. But that sort of thing, all by itself, wouldn't do. Not strong enough. He wanted not only to classify the thing for what it was, but to record his lasting reolve as to any future action of his in re gard to it

He could have written, perhaps "This is nonsense I won't put up with." That would be getting warm. What he did write, ac-cording to Mr. Hall was as follows:

cording to Mr. Hall was as lonows.
"This is nonsense up with which I will not put."

not put."

It is not hard to imagine the cheruble malice in his face as he wrote that punch line. — Caigary Albertan.

The fullest and best ears of corn hang lowest to the ground.—Bishop Reynolds
